television shows like *Lost* and *Once Upon a Time* and on the covers of the Beatles *Abbey Road* and Bob Dylan's *Freewheelin'* album. The story is brought up to date with coverage of the New Beetle and plans for the VW Buzz, a modern electric version of the iconic Microbus due in 2022. Volkswagen Beetles and Buses deserves a place in the motoring libraries of VW owners, automotive enthusiasts and those simply interested in pop culture. It's the ultimate illustrated history of these beloved vehicles.

Global Business Alliances Refik Culpan, 2002-03-30 Forging business alliances can vitalize corporate strategies. This book is a road map to the concepts and theories underlying successful business alliances in four critical industries: automobile, manufacturing, pharmaceuticals, airlines, and telecommunications. Dr. Culpan offers the essentials of global partnering as seen from a strategic management viewpoint. He examines joint ventures, non-equity alliances, and business options designed to give a competitive edge over other allied firms. New conceptual models help to clarify various strategies and collaborative processes. By comparing the four major industries and specific companies in each, this study explores not only the uniqueness of its subjects but also the common grounds of various multinationals. Through key insights and ideas, the possibilities and realities of corporate alliances begin to emerge. Attention is also paid to the decision-making process as it relates to cooperative ventures as well as to the inevitable managerial challenges of forming and managing strategic alliances. The result is an astute analysis ideal for teachers, students, and strategists seeking fresh insights into the workings and benefits of corporate alliance.

The New European Automobile Industry Michael Rawlinson, Peter Wells, 2016-07-27 *The New European Automobile Industry* is about the struggle for survival going on among the assembler and components firms which constitute the European automobile industry. It describes and explains the competitive, structural, organisational, and technological changes currently sweeping the industry and outlines the spatial and economic effects of those changes. The empirical core of the book is a study of a number of technology fields in automobile components. These sections draw on the latest research carried out by the authors in Europe, through which they evaluate the extent to which lean production techniques have permeated the vehicle assemblers and components industry.
