NOTE Credit goes to Samba user folmescott for making the turn signal work!
 The two diodes can be purchased from Watson (FY-THD) and is **NEEDED** for things to work properly. If you can solder or don't want to, make sure you purchase it with your order. To make your own, the diodes are 1 amp and can be bought at Radio Shack for a buck each. Make sure you orient them as pictured.
 The universal diode can be purchased at any auto parts store or Radio Shack. It's a generic part, not from any specific car. Wire it up as shown. Green and orange are just arbitrary, use whatever color you want.
