Vw T2 Bus:

The Volkswagen Bus Book Malcolm Bobbitt, 2016-11-15 This is the story of VW's timeless classic the Type 2 Transporter universally known as the Bus. It is sixty years since the idea of VW's Transporter was conceived by Dutchman Ben Pon after seeing motorized trollies conveying components around the British managed Wolfsburg factory in the mid 1940s. With blueprints complete by November 1948 the Bulli as it was known in Germany went into production a year later. The 100 000th Transporter was built in October 1954 the millionth in 1961 and the 3 millionth in 1971 the total number of vehicles exceeding 6.5 million. The Transporter changed little in concept throughout decades of production and remained in production in Brazil until very recently nearly six decades after its postwar German debut. Researched in incredible detail this book explores the story of the VW bus from early origins through to the present day. This entirely new edition includes details of many of the different camper conversions and examines the social history and the T2's evolution. Including full specifications, production figures and buying advice, this totally reworked classic is an interesting, highly informative read and a must for any VW enthusiast.

The Deadline Jill Lepore, 2023-08-29 Jill Lepore is unquestionably one of America's best historians; it's fair to say she's one of its best writers too. Jonathan Russell Clark, Los Angeles Times. Best Books of 2023. New Yorker, TIME. A book to be read and kept for posterity. The Deadline is the art of the essay at its best. Few, if any, historians have brought such insight, wisdom and empathy to public discourse as Jill Lepore. Arriving at The New Yorker

in 2005 Lepore with her panoptical range and razor sharp style brought a transporting freshness and a literary vivacity to everything from profiles of long dead writers to urgent constitutional analysis to an unsparing scrutiny of the woeful affairs of the nation itself The astonishing essays collected in The Deadline offer a prismatic portrait of Americans techno utopianism frantic fractiousness and unprecedented but armed aimlessness From lockdowns and race commissions to Bratz dolls and bicycles to the losses that haunt Lepore s life these essays again and again cross what she calls the deadline the river of time that divides the quick from the dead Echoing Gore Vidal s United States in its massive intellectual erudition The Deadline with its remarkable juxtaposition of the political and the personal challenges the very nature of the essay and of history itself

Volkswagen Bus Heinz Duthel,2012-03-08 Volkswagen BusHistory of the Volkswagen Bus List of the Volkswagen Bus The concept for the Type 2 is credited to Dutch Volkswagen importer Ben Pon It has similarities in concept to the 1920s Rumpier Tropfenwagen and 1930s Dymaxion car by Buckminster Fuller neither of which reached production Pon visited Wolfsburg in 1946 intending to

purchase Type 1s for import to Holland where he saw an improvised parts mover and realized something better was possible using the stock Type 1 pan. He first sketched the van in a doodle dated April 23 1947 proposing a payload of 690 kg 1 500 lb and placing the driver at the very front. Production would have to wait however as the factory was at capacity producing the Type 1. The first generation of the Volkswagen Type 2 with the split windshield informally called the Microbus Splitscreen or Splittie among modern fans was produced from 8 March 1950 through the end of the 1967 model year. From 1950 to 1956 the T1 was built in Wolfsburg from 1956 it was built at the completely new Transporter factory in Hanover. Like the Beetle the first Transporters used the 1100 Volkswagen air cooled engine an 1 131 cc 69 0 cu in DIN rated 18 kW 24 PS 24 bhp air cooled flat four cylinder boxer engine mounted in the rear. This was upgraded to the 1200 an 1 192 cc 72 7 cu in 22 kW 30 PS 30 bhp in 1953. A higher compression ratio became standard in 1955 while an unusual early version of the 30 kW 41 PS 40 bhp engine debuted exclusively on the Type 2 in 1959. This engine proved to be so uncharacteristically troublesome that Volkswagen recalled all 1959 Transporters and replaced the engines with an updated version of the 30 kW engine.
