Ltd, 1965 [VW Air-Cooled Engines](#) Dr. John F. Kershaw, 2023-02-15 The VW Beetle, officially the Volkswagen Type 1, needs no introduction. Manufactured and marketed globally by Volkswagen from 1938 to 2003, more than 21 million were produced and sold around the world. The car was extremely popular in the US and Europe during the 1950s and 1960s. However, increasing competition from Japanese, American, and European manufacturers, as well as stiffening demands for better safety and emissions, contributed to a sharp decline in sales in the early 1970s. The Beetle was manufactured in much smaller numbers in Germany until the late 1970s when production shifted to Brazil and Mexico, where operating cost was a large factor in keeping the Beetle alive. While simple and fun, the Beetle had simply become outdated. Of course, the enthusiast market did not see it that way. Aficionados loved the simplicity in the design as well as its aesthetics, and they enjoyed tinkering with the mechanicals of their Beetles. Buses, Type 3 models, and Karmann Ghias.
