

The image shows the center console of a 2015 Volkswagen. At the top are three air vents. Below them is a row of buttons: a button with a red triangle (hazard lights), a button with a car icon, and a button with an 'A OFF' symbol. The main infotainment screen is in the center, displaying the 'Images' menu with icons for a cloud, MirrorLink, a picture, a music note, and a gear. To the left of the screen are buttons for RADIO, MEDIA, PHONE, and MUTE. To the right are buttons for SETUP, SOUND, CAR, and MENU. Below the screen are two circular controls, likely for volume and tuning. The text '2015 VW Composition Media Review' is overlaid in large yellow font at the bottom.

Philosophical Foundations of Fiduciary Law Andrew S. Gold,Paul B.

Miller,2014-08-14 Fiduciary law is a critically important body of law Fiduciary duties ensure the integrity of a remarkable variety of relationships institutions and organizations They apply to relationships of great personal significance including in some jurisdictions the relationship between parents and children They structure a wide variety of commercial relationships and they are essential to the regulation of relationships between professional service providers and their clients including relationships between lawyer and client doctor and patient and investment manager and client Fiduciary duties perhaps uniquely in private law challenge traditional ways of marking the boundaries between private and public law inasmuch as they figure prominently in public governance Indeed there is even a storied tradition of thinking of the authority of the state in fiduciary terms Notwithstanding its importance fiduciary law has been woefully under analysed by legal theorists Filling this gap with a series of chapters by leading theorists this book includes chapters on the nature of fiduciary relationships the connection between fiduciary duties and morality the content and significance of fiduciary loyalty the economic significance of fiduciary law the application of fiduciary principles to public law and international law the import of fiduciary relationships to theories of authority and various other fundamental topics in the field In many cases new and important questions are raised by the book s chapters Indeed this book not only offers a much needed theoretical assessment of fiduciary topics it defines the field going forward setting an agenda for future philosophical study of fiduciary law *Handbook of Creativity*

John A. Glover,Royce R. Ronning,Cecil R. Reynolds,2013-03-09 The motivation underlying our development of a handbook of creativity was different from what usually is described by editors of other such volumes Our sense that a handbook was needed sprang not from a deluge of highly erudite studies calling out for organization nor did it stem from a belief that the field had become so fully articulated that such a book was necessary to provide summation and reference Instead this handbook was conceptualized as an attempt to provide structure and organization for a field of study that from our perspective had come to be a large scale example of a degenerating research program see Brown Chapter 1 The handbook grew out of a series of discussions that spanned several years At the heart of most of our interactions was a profound unhappiness with the state of research on creativity Our consensus was that the number of good works published on creativity each year was small and growing smaller Further we could not point to a journal text or professional organization that was providing leadership for the field in shaping a scientifically sound framework for the development of research programs in creativity At the same time we were casting about for a means of honoring a dear friend E Paul Torrance Our

decision was that we might best be able to honor Paul and influence research on creativity by developing a handbook designed to challenge traditional perspectives while offering research agendas based on contemporary psychological views

The Evolution of Hominin Diets Jean-Jacques Hublin, Michael P. Richards, 2009-05-15 Michael P Richards and Jean Jacques Hublin The study of hominin diets and especially how they have primates modern humans 2 faunal and plant studies 3 evolved throughout time has long been a core research archaeology and paleoanthropology and 4 isotopic studies area in archaeology and paleoanthropology but it is also This volume therefore presents research articles by most of becoming an important research area in other fields such as these participants that are mainly based on their presentations primatology nutrition science and evolutionary medicine at the symposium As can hopefully be seen in the volume Although this is a fundamental research topic much of the these papers provide important reviews of the current research research continues to be undertaken by specialists and there in these areas as well as often present new research on dietary is with some notable exceptions e g Stanford and Bunn evolution 2001 Ungar and Teaford 2002 Ungar 2007 relatively lit In the section on modern studies Hohmann provides a tle interaction with other researchers in other fields This is review of the diets of non human primates including an unfortunate as recently it has appeared that different lines interesting discussion of the role of food sharing amongst of evidence are causing similar conclusions about the major these primates Snodgrass Leonard and Roberston provide issues of hominid dietary evolution i e

Glocalized Solutions for Sustainability in Manufacturing Jürgen Hesselbach, Christoph Herrmann, 2011-03-19 The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 continues a long tradition of scientific meetings focusing on the exchange of industrial and academic knowledge and experiences in life cycle assessment product development sustainable manufacturing and end of life management The theme Glocalized Solutions for Sustainability in Manufacturing addresses the need for engineers to develop solutions which have the potential to address global challenges by providing products services and processes taking into account local capabilities and constraints to achieve an economically socially and environmentally sustainable society in a global perspective Glocalized Solutions for Sustainability in Manufacturing do not only involve products or services that are changed for a local market by simple substitution or the omitting of functions Products and services need to be addressed that ensure a high standard of living everywhere Resources required for manufacturing and use of such products are limited and not evenly distributed in the world Locally available resources local capabilities as well as local constraints have to be drivers for product and process innovations with respect to the entire life cycle The 18th CIRP International Conference on Life Cycle Engineering LCE 2011 serves as a platform for the discussion of the resulting challenges and the collaborative development of new scientific ideas
