Supply Chains in Reverse Logistics Robert Stanisławski, Andrzej Szymonik, 2023-12-20 Currently it is obvious that new types of production Industry 4 0 are accompanying new ways of distribution which advance logistics physical distribution science and even supply chain management The changing environment for carrying out logistics activities is also important for the development of the supply chain Care for ecology the recent pandemic and the situation in Ukraine are other reasons to adapt logistics to the needs of an individual customer recipient It would be impossible without developing an appropriate strategy and applying appropriate tools for managing supply chains in the national and international dimensions This book specifically addresses these issues When analyzing the needs and structure of modern supply chains in the context of their safety and risk reduction it is impossible to ignore the problem of digitization which allows for logistic analysis of the company determining optimal routes designing logistic systems optimizing storage processes and costs and predicting possible threats crisis situations and their effects losses IT support automatic data exchange e logistics telematics traceability and chatbots between various departments of the company along the upper and lower parts of the supply chain improve the flow of material and accompanying information through automation robotization proactivity and document digitization These new trends make it possible to define logistics as modern logistics using new achievements of science and technology Modern logistics must also consider ecological aspects in line with assumptions about protecting the environment and improving our climate Efficiently organized reverse logistics is not without significance for ecology It is supported by renewable energy electric vehicles proper education in the field of a closed economy cleaner production waste minimization the use of passive infrastructure and proper waste management that allows us to positively influence environmental protection and human health To meet the needs of creating modern supply chains

the authors developed this powerful book in which they analyze and present current and future solutions that influence the development of these issues in modern reverse logistics **Prototype** Jason Dean,2023-02-16 A single breakthrough could change the world forever Having just completed a complex recovery assignment covert salvage specialist Korso is in no mood to take on another job so soon but he has little choice when he s contacted by Cole Ashcroft an ex colleague who s calling in a debt An official at the US Embassy in Bulgaria has approached Cole with a well paying salvage job but only if he can persuade Korso to plan the whole operation A chemist for a pharmaceutical company has secretly developed a revolutionary glaucoma pill one with an unexpected side effect that could make it the discovery of the century But the chemist has since been found dead and the prototypes are missing Aware that ownership of these pills could shift the balance of military power overnight the embassy man offers to pay Korso handsomely to locate and recover them using any means necessary But with a job this big Korso also knows he ll have to assemble a team to help him and that brings its own set of problems Because with potential profits in the billions can he really trust anyone A full throttle thriller that will keep you guessing to the very end perfect for fans of Mark Greaney Ben Coes and Adam Hamdy *Take the Slow Road: England and Wales* Martin

Dorey,2019-05-16 Forget hurrying Forget putting your foot down and racing through sweeping bends Forget the understeer whatever that is Forget the blur of a life lived too fast This is a look at taking life slowly It s about taking the time to enjoy journeys and places for their own sake It s about stopping and putting the kettle on Stopping to take a picture Stopping to enjoy stopping How are you going to do it In a camper van or a motorhome of course In this book we define the best driving routes around England and Wales for camper vans and motorhomes We show you the coolest places to stay what to see what to do and explain why it s special We meander around England and Wales on the most breathtaking roads chugging up mountain passes and pootling along the coast We show you stuff that s fun often free We include the best drives for different kinds of drivers for surfers wildlife watchers climbers and walkers We include the steepest the bendiest those with the most interesting bridges or views or obstacles ferries and tidal causeways And you don t even have to own a camper van or motorhome we ll tell you the many places you can rent one to take you on the journey All of this is interspersed with beautiful photos handy maps and quirky travel writing from the king of camper vans and motorhomes Martin Dorey So if all you want to do is flick through it on a cold day and plan your next outing you ll be transported albeit slowly to pastures beaches mountains and highways that make you want to turn the key and go go go **Automotive Ethernet** Kirsten

Matheus,Thomas Königseder,2021-04-22 Get up to speed with the latest developments in Automotive Ethernet technology and implementation with this fully revised third edition Take the Slow Road: Ireland Martin Dorey,2020-05-14 Forget hurrying Forget putting your foot down and racing through sweeping bends Forget the understeer whatever that is Forget the blur of a life lived too fast This is a look at taking life slowly It s about taking the time to enjoy journeys and places for their own sake It s about stopping and putting the kettle on Stopping to take a picture Stopping to enjoy stopping How are

you going to do it In a camper van or a motorhome of course In this book we define the best driving routes around Ireland for camper vans and motorhomes We show you the coolest places to stay what to see what to do and explain why it s special We meander around Ireland on the most breathtaking roads chugging up mountain passes and pootling along the coast We show you stuff that s fun often free We include the best drives for different kinds of drivers for surfers wildlife watchers climbers and walkers We include the steepest the bendiest the scariest and most interesting And you don t even have to own a camper van or motorhome we ll tell you the many places you can rent one to take you on the journey All of this is interspersed with beautiful photos handy maps and quirky travel writing from the king of camper vans and motorhomes Martin Dorey So if all you want to do is flick through it on a cold day and plan your next outing you ll be transported albeit slowly to pastures beaches mountains and highways that make you want to turn the key and go go go

Intelligent Systems in Production Engineering and Maintenance Anna Burduk,Edward Chlebus,Tomasz Nowakowski,Agnieszka Tubis,2018-07-31 The book presents a collection of 103 peer reviewed articles from the Second International Conference on Intelligent Systems in Production Engineering and Maintenance ISPEM 2018 The conference was organized by the Faculty of Mechanical Engineering and CAMT Centre for Advanced Manufacturing Technologies Wroc aw University of Science and Technology and was held in Wroc aw Poland on 17 18 September 2018 The conferences topics included the possibility of using a wide range of intelligent methods in production engineering presenting and discussing new solutions for innovative plants research findings and case studies demonstrating advances in production and maintenance from the point of view of Industry 4 0 particularly applications of intelligent systems methods and tools in production engineering maintenance logistics quality management information systems and product development The book is divided into two parts the first includes papers related to intelligent systems in production engineering while the second is dedicated to special sessions focusing on 1 Computer Aided methods in Production Engineering 2 Mining 4 0 and Intelligent Mining Transportation 3 Modelling and Simulation of Production Processes 4 Multi Faceted Modelling of Networks and Processes 5 Product Design and Product Manufacturing in Industry 4 0 This book is an excellent source of information for scientists in the field of manufacturing engineering and for top managers in production enterprises

The Van Conversion Bible Charlie Low & Dale Comley,2025-02-01 New 2025 edition packed full of brand new content also inc 16 extra pages Want to wake up to a breathtaking new view every morning Have you been dreaming about owning a vehicle to fuel your adventures Building a campervan gives you total freedom to create your very own rolling home Escape the daily grind hit the open road and re write the way you live The Van Conversion Bible is the ultimate guide to planning designing and converting a campervan It s more than just the story of how we built our own van Ringo it will help you build a van bespoke to your needs It provides definitive answers to your questions even the ones you haven t thought of yet to ensure you save time and avoid expensive mistakes From detailed gas water and electrical system diagrams to a step by step build guide you ll find everything you

need to start your journey inside Whatever your skills and budget you can learn how to build your dream campervan Your very own home on wheels awaits

The Evolution of European Manufacturing Industries Bolesław Domański, Grzegorz Micek, Robert Guzik, Krzysztof Gwosdz, Arkadiusz Kocaj, 2024-08-29 The book provides a picture of the increasing significance of Central Europe and especially Poland in global production networks discussing the underlying economic social and political factors The key question it answers is to what extent the growth of production and exports results in industrial upgrading towards the manufacturing of more sophisticated high value added products new technologies and the development of non production functions especially design and advanced service capabilities The book shows that Central European manufacturing no longer exhibits the typical features of production activities in the periphery in particular low density and diversity low productivity narrow specialisation in low value added activities and poor local linkages hence limited local value creation and value capture There is still dependence on foreign controlled enterprises in several sectors and limited product innovation which remains a major weakness Further the book assesses the social consequences of the ongoing development of manufacturing capabilities in Poland and its impact on employment conditions including the quality of jobs and level of wages The authors provide insight into relationships between globalisation processes place specific attributes and current economic policies and as such the book will be of interest to academics policy makers and other stakeholders interested in both peripheral economies and core countries and representing various international organisations dealing with economic transition and development
