Type: <u>FPGA Customer</u> Tim Benkowski Job Title: Engineering Manager	As a FPGA customer and engineering manager... I need to provide my team with development and programming training for the new Xonker FPGA we will be using in our new project... ...so that my team can limit their learning curve and be productive out of the gate.	1. Find FPGA training classes for the Xonker Device (Browse or Search) 2. Review classes offered and select the right classes for my team 3. Purchase the classes I need and assign my team members to each class 4. Track each team member's progress with their training class	Great... I was able to find the classes that fit our requirements and schedule, get the class information to make a decision on the class best suited for project, easily purchase, and assign my team members to the classes... AND I was able to log in and track each team member's progress, and completion. FPGA really knows how to support their products!

Next Steps:

1. Develop a minimum of 3 personas and users stories
2. Review with UX Design Team
3. Design wire frames that illustrate key tasks and user stories.
