Using Google Advanced Search Michael Miller, 2011-11-16. Using Google Advanced Search is the one book you shouldn't be without if you regularly search the Web. And who doesn't search the Web with Google or one of its competitors at least once a day? And if you're a scholar, researcher, or teacher learning how to comb millions of Web pages for exactly the piece of information you need is critical to your success. Stop wasting time combing through search results that aren't what you want or need. Using Google Search will show you how to use the operator to search for similar words or to use quote marks for performing an exact search; use wildcards to search for missing words in an exact phrase; search for specific file types; search only a specific website or domain; search only in the title of web pages; the URL or to within the text of the page; search of pages that link to a specific webpage; search in a different language; use Google to locate bargains; specifically search blogs and blog posts; search libraries; search for scholarly and specialty information; perform calculations within the search box.
