B. Considering Service Connection for Disabilities Resulting From Exposure to Asbestos During Service

When deciding a claim for service connection for a disability resulting from exposure to asbestos:

- determine whether or not service records demonstrate the Veteran was exposed to asbestos during service
- ensure that development is accomplished to determine whether or not the Veteran was exposed to asbestos either before or after service, and
- determine whether or not a relationship exists between exposure to asbestos and the claimed disease, keeping in mind latency and exposure factors.

Notes:

- As always, resolve reasonable doubt in the claimant's favor.
- If assistance in deciding a case is needed, contact the Compensation Service Policy Staff (211).

Solve the Problem: Turn this list from VA Manual M21-1MR into a checklist of things to prove.

You don't have to DISprove anything in a VA Claim, but if you can, consider doing that.

It gets really hard for the VA to raise the mercury level in the [VA Claims Evidence Thermometer](#) high enough to deny your claim if your file has [5-Star Evidence](#) that disproves everything the VA is trying to "prove".

Think about that for a little bit.

This may not be the best course in every case - we don't want to send the VA a haystack of evidence and then tell them to find the needle.

We are trying to show them - in the most clear terms possible - the needle.

Using the above snippet from VA Manual M21-1MR, you can:

Get proof of your exposure to asbestos while in the Navy - though this manual says that they are looking for service records, you are NOT bound by YOUR service records. Know another veteran that ser.

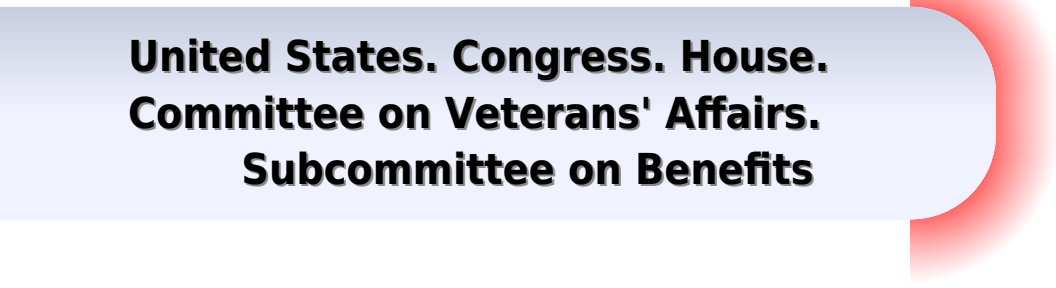

Get proof - through Sworn Declarations or [other 5-star evidence](#) - that you were not exposed to asbestos before or after service.

Get proof - through a competent medical examiner - that your asbestos was at least as likely as not related to your military service on the USS .
