

8th Grade Commencement Speech

Waking up that early morning in premature September, I didn't know what I was going to face-it being the first day of middle school. All I knew is that I had lost my friends to the ravenous void that was fate-causing our paths to be torn as we were split among the middle schools. That being said, I didn't know anyone here-other than some vaguely familiar faces. Nevertheless, that fear was lost as I realized how welcoming and caring this community could be. I was welcomed in open arms of kindness, and I quickly made wonderful friends here. Wherever I would turn, I would be greeted with warm hospitality-as well as a wondrous education, which has helped me discover which paths in my career I wish to take, which could be true for the many of you as well. Throughout these last three years, we have all learned valuable life lessons-no matter who you are I'm sure of it. We've all gained a part of ourselves and are welcoming who we shall become. It's been a long road for each and every one of us, but I have no doubt in my mind that everyone in this room has become a better individual because of the magnificent staff and teachers who reside here. They haven't just taught us how to construct math formulas, build hypotheses, connect to our books, and become middle school students. They've done much more than that. We've made connections with our instructors, and through those relations we have learned a great deal of life lessons. No matter who you are, I know that this is valid-and I know that when we all grow up and graduate high school-and move on to bigger and brighter things, we'll think of those here who have helped us on our journey-and never gave up on us. This institution has striven for us to succeed-not just here, and not just in the high school, but for the rest of our lives. That, and more, is more than enough to prove that this Middle School is truly the best middle school, the world has ever known. And of course, we all know each and every one of us will continue to grow, to flourish, but many of the feats and accomplishments we've made up to now is thanks to those we will soon be leaving behind. For everything they've done for us, and for what we've done to help one another, I thank you all.

anxiety and severe panic attacks Emily's mental illness worsened as she entered into an adolescence characterized by body image issues, disordered eating, self-harm, suicidality, and unhealthy reliance on alcohol. She did all she could to combat her demons, but a new obstacle soon presented itself in the form of a cancer diagnosis and the harsh realities of chemotherapy that came with it. Emily's earnest attempts to find healing in adulthood were countered yet again this time by intimate partner violence, sexual assault, and the pain of pregnancy loss. Throughout it all, Emily persevered. Emily shares her story with candor and raw honesty, inviting her readers to step into her shoes as she navigates pain and finds strength. She bravely gives her readers access to her inner thoughts as she tackles the most difficult moments of her life. Emily shares not only her story but also her personal strategies and learnings that helped her overcome, recover, and heal. Emily's hope is simple yet profound: that her readers too can water their own Sunflower Souls, finding their own light, growth, and resilience amid life's challenges.

History of the Association of Black Psychologists Robert L. Williams, 2008. This book, *The History of Black Psychologists: Profiles of Outstanding Black Psychologists*, is about the origins and development of African Black psychology. It is essentially a sequel to Robert Guthrie's book *Even the Rat Was White: A Historical View of Psychology* (1976). Whereas Guthrie's book contains the history of early Black Psychologists, such as Drs. Francis Cecil Sumner, Kenneth Clark, and Martin Jenkins, to name a few from 1920 to 1950, this book contains valuable information from the 1960s through 2000 about why, where, and when the Association of Black Psychologists (ABPsi) was organized and developed. In addition, the book includes the autobiographical and biographical profiles of the lives, achievements, and contributions of nearly 50 outstanding Black psychologists. There are many hard-working, dedicated, and educated Black men and women professionals whose success stories have not been told. Although their peers and colleagues respect many of these professionals, only a select few have been reported as outstanding. What is it then that qualifies one as being exceptional, above the ordinary, and outstanding? It is hard to define in terms of human traits and accomplishments. What is easier is to provide examples rather than explanations of what it means to be outstanding. Such individuals who exemplify the definition of outstanding are many unknown Black Psychologists. This book will present some of these Scholar-Activists. It is apparent that the majority of the Black psychologists made it against the odds. Many of these psychologists were born in southern states and had to migrate to northern states to receive a graduate education. For Black achievement is invariably a triumph over odds, a victory over struggle. In order to receive graduate education, these psychologists report how they had to overcome the destructive effects of racism. Frequently, they were the only Black students in the graduate program. But they still made it. *Get Set, Go!* Thomas R.
