Congress. House. Committee on Education and the Workforce, 1999 **The Struggle for Change** Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin

Chiles now offers a unique take on Richmond's racial politics since the civil rights era by demonstrating that the city's current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond's racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond's Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans

University Leadership in Urban School

Renewal Nancy L. Zimpher, Kenneth R. Howey, 2004-05-14 The themes of this book resonate closely with the values of ACE leadership change community partnership and the importance of teacher education and learning With higher education facing increasing financial constraints and public education under continued strain education leaders must dedicate their efforts to strengthening the partnership of higher education with K 12 education and with the community to ensure success This book features examples of university leaders who took a personal interest in and led their institutions efforts to improve the quality of teacher preparation and to develop partnerships with school systems to ensure that more future teachers were recruited prepared and provided with an excellent transition into their teaching roles The leaders used their power to communicate with campus communities and partner beyond their institutions into the communities in which they are located University Leadership in Urban School Renewal describes the role of the public urban university president and chancellor in providing leadership in P 16 education through activities undertaken in partnership with local urban school districts to improve the quality of teaching and learning Leaders from urban institutions of higher education who are members of the 14 Great Cities Universities universities that collectively serve more than 340 000 students and prepare one fifth of the nation's teachers reflect upon their efforts to respond to the needs of education reform particularly within the country's most challenging metropolitan environments The authors describe strategies that make education reform the responsibility of all from teacher education as a university wide effort to university community partnerships They explicate the link from higher education to school districts other educational institutions local business government and the community at large The authors asked 14 presidents of urban universities to make as explicit as possible their leadership actions and change strategies within the context of how they have worked to improve the quality of education for urban youth The first person accounts of these leaders reflect the important role of urban state universities in addressing the pervasive problems in urban education as they illustrate the leadership practices of presidents and chancellors

Southern Stalemate Christopher Bonastia, 2012-01-11 In 1959 Virginia's Prince Edward County closed its public schools rather than obey a court order to desegregate For five years black children were left to fend for themselves while the courts decided if the county could continue to deny its citizens public education Investigating this remarkable and nearly forgotten story of local state and

federal political confrontation Christopher Bonastia recounts the test of wills that pitted resolute African Americans against equally steadfast white segregationists in a battle over the future of public education in America Beginning in 1951 when black high school students protested unequal facilities and continuing through the return of whites to public schools in the 1970s and 1980s Bonastia describes the struggle over education during the civil rights era and the human suffering that came with it as well as the inspiring determination of black residents to see justice served Artfully exploring the lessons of the Prince Edward saga Southern Stalemate unearths new insights about the evolution of modern conservatism and the politics of race in America

Spatial Citizenship Education Euikyung E. Shin, Sarah Witham Bednarz, 2018-09-21 *Spatial Citizenship Education* is an innovative exploration of ways to engage and promote citizenship through a deeper understanding of spatial and geographic perspectives The authors propose that recognizing the relationship between space and citizenry enables productive and positive engagement with important societal issues such as equity justice and environmental stewardship By providing a historical overview of geography's contribution to citizenship education including progress made and challenges faced by educational reform movements this collection shows how geography can contribute to a new type of citizen one with an enhanced understanding of the world as seen through the key concepts of geography space place scale power and human environment relationships Through a theoretical explanation of key citizenship ideas and by providing practical classroom based teaching tools this volume will be essential for geography education researchers and social studies educators alike

Charter Schools Jack Buckley, Mark Schneider, 2009-07-13 Over the past several years privately run publicly funded charter schools have been sold to the American public as an education alternative promising better student achievement greater parent satisfaction and more vibrant school communities But are charter schools delivering on their promise Or are they just hype as critics contend a costly experiment that is bleeding tax dollars from public schools In this book Jack Buckley and Mark Schneider tackle these questions about one of the thorniest policy reforms in the nation today Using an exceptionally rigorous research approach the authors investigate charter schools in Washington D C carefully examining school data going back more than a decade interpreting scores of interviews with parents students and teachers and meticulously measuring how charter schools perform compared to traditional public schools Their conclusions are sobering Buckley and Schneider show that charter school students are not outperforming students in traditional public schools that the quality of charter school education varies widely from school to school and that parent enthusiasm for charter schools starts out strong but fades over time And they argue that while charter schools may meet the most basic test of sound public policy they do no harm the evidence suggests they all too often fall short of advocates claims With the future of charter schools and perhaps public education as a whole hanging in the balance this book supports the case for holding charter schools more accountable and brings us considerably nearer to resolving this contentious debate

The Virginia Journal , 1994 *The Inclusive Classroom* Margo A. Mastropieri, Thomas E. Scruggs, 2010 This text offers a

wealth of practical and proven strategies for successfully including students with disabilities in general education classrooms. The text provides targeted strategies for the subject and skill areas as well as special needs of individual students with a strong focus on instructional strategies applied to specific student need areas. An overall theme of effective differentiated instruction is infused throughout the text relating to those practices that are most closely aligned with academic success. The text is unique in its three part coverage of 1 the fundamentals of teaching students with special needs 2 effective general teaching practices and 3 inclusive practices in specific subject areas. With a strong focus on instructional strategies and how they are applied to specific student need areas the text goes further by featuring more specific strategies than any other text and extensive information about the most effective strategies available and when and how to use them. This strong focus instructs pre service teachers and other education personnel on how they can implement in the classroom specific strategies to address a very wide range of grade levels skill levels academic content areas and extensive and very specific information on strategies teachers can use in the areas of most concern to them e.g. behavior management handling student confrontations promoting literacy memory for school content motivation to learn maintaining student attention adapting assessment and improving test scores and specific strategies for adapting specific lessons in math science social studies and career and technical education. Specifically written for pre service or in service special education teachers who will work with general education teachers in K 12 classrooms the text is also relevant for school psychologists counselors support staff and other school personnel interested in helping all students succeed in the classroom. *THE Journal*, 2002 *Subject Catalog of the Institute of Governmental Studies Library, University of California, Berkeley* University of California, Berkeley.
