Introduction

This slide could be edited to show your school's name and/or badge. Children, a great big welcome to our first assembly for this school year. It's fantastic to see you all here today and I hope you had a lovely holiday. We have some new faces with us today and I'd like to introduce them... (continue to introduce new staff and pupils).

New Can Be...

So this is a new school year. Did anyone get anything new for coming back to school? A new school bag? A new pencil case? New shoes? A new shirt? A new haircut? How does it feel when something is new? (Allow the children to come up with ideas.) It can be exciting. It can be fun. It can be worrying. It can just be new!

New Things, Sometimes, Just Don't Feel Right

New things can feel a bit strange. A new school bag can have pockets where you never find anything. The slip-on a new pencil case can be a bit stiff to close. New shoes can be difficult to fasten or a bit hard on your toes. A new shirt can rub your neck at the collar and be a bit uncomfortable. A... or just look different being somewhere new or a... that. It can feel a bit odd. It's different. It's a bit strange. It just doesn't feel right. Many of us don't... something new.

Global Dimension , Artificial Intelligence in the Primary Classroom Gemma Clark,2024-05-28 Artificial intelligence AI has sparked a huge debate among teachers and school leaders Many questions arise about the trajectory of this new technology and where it will take us How will we differentiate between student authored work and AI generated content Will it lead to a loss of creativity and critical thinking skills What impact will it have on the dynamics of learning and teaching within schools These are all crucial topics for discussion yet AI has already become part of our reality and Gemma Clark firmly believes that embracing its potential is in our best interests In an era defined by technological advances Artificial Intelligence in the Primary Classroom stands as an indispensable resource that holds the key to transforming teaching and learning For educators burdened by bureaucratic tasks that divert precious time from actual teaching this book offers a lifeline It demonstrates how AI powered tools can alleviate administrative burdens enabling teachers to focus on the important job of nurturing young minds and to channel their energy and resources into higher impact activities such as crafting tailored learning experiences giving children personalised feedback and improving engagement From time consuming tasks like lesson planning assessment marking and automating report writing processes to facilitating content creation the book details tangible ways in which AI can streamline workflows improve teaching and restore work life balance Other examples include Spelling Lessons Save time when planning your spelling lessons by using AI to automatically generate a comprehensive list of phonemes or sounds suitable for teaching young children Mindfulness in the Classroom If you are interested in incorporating mindfulness games and activities to assist children in relaxation and focus AI can provide valuable suggestions for fostering pupil and staff wellbeing PE Lessons You don t have to be an expert in sports to teach PE Whether it s tennis football rugby or running AI can offer suggestions for activities warm ups and cool downs to use in your PE lessons Art Lessons AI can be an excellent resource for planning art lessons especially when seeking suggestions to emphasize one of the eight elements such as line shape form colour value texture space and value Maths Lessons As with spelling AI can significantly reduce the time spent on creating maths questions and simplify the process of differentiation Artificial Intelligence in the Primary Classroom is filled with practical strategies engaging activities and useful tips and tricks that will save teachers time and energy Gemma provides transferrable ideas and lesson plans with step by step instructions that can be adapted and used in secondary settings as well as primary Backed up by real world examples throughout this

book empowers teachers to embrace AI as a tool in fostering enhanced learning experiences while also reclaiming invaluable time for pedagogical creativity Suitable for primary school teachers of all levels of experience

The Elementary School Principal's Calendar Robert Ricken, Michael Terc, Ida Ayres, 2001-06 Staff confidence in the principal is earned not only by

his or her commitment to educational quality and understanding of the teaching and learning process but also by the calm orderly tone of the building's day to day operational mode Nothing demoralizes a staff more than cancelled meetings

postponed teacher observations and surprises which negate their instructional plans Concerned that highly intelligent administrators often fail because of their lack of organizational skills this book stresses the nuts and bolts of the principal's

responsibilities With the monthly calendars checklists and sample documents provided in The Middle School Principal's Calendar the elementary school principal will find it easy to organize and keep his or her school running smoothly

The Four Gospels on Sunday Gordon W. Lathrop, 2012-06-01 Premier liturgical theologian Gordon Lathrop argues that far too

often liturgy preaching and liturgical theology are informed by nave and outdated exegesis In another fully original and deeply reflective work Lathrop partners with newer biblical studies to see the Gospels anew He treats the Gospels as early

witnesses to the meaning of Christian assembly and forces in the shaping and reshaping of liturgy Lathrop first probes each Gospel historically and exegetically to discern what it tells us about early Christian worship and Christians relationship to the

Risen One Then Lathrop treats the Gospels together to draw out more of their contemporary importance especially ways in which they can enrich our reflection about the assembly itself ministry baptism the use of scripture in liturgy and unity within

ecumenical diversity Taking seriously the origins of the New Testament as we understand them today Lathrop demonstrates that the Gospels can remain a true catalyst for liturgical theology and liturgical renewal as well as an inspiring link to the

faith and convictions of the earliest followers of the Christian way

Transformative Renewal in the Catholic Church John O'Brien, This book explores transformative renewal in the Catholic Church Both practical and systematic it examines 6

pastoral initiatives unfolding at local level and their coherence with the synodal path inaugurated by Pope Francis to argue that the Church is on the cusp of incipient development of tradition It promotes mutual learning with integrity between

different ecclesial perspectives rooted in patience as spiritual power enabling contemplative purposefulness in a renewal journey which cannot be completed easily quickly or completely

Extended Schools Suzanne O'Connell, Julia Everitt, 2010-06-03 The extended schools agenda is high profile and yet is very difficult for schools to fulfil Schools are

understandably focused upon the standards agenda Implementing the Government's wishes to make schools available to parents from 8 am to 6pm 48 weeks a year can be seen as an additional burden Even where an extended schools coordinator

has been appointed they can be shared between so many schools that it makes it difficult to meet the needs of all the schools involved A patchwork of provision means that there is still great confusion and lack of direction in terms of delivery This

publication looks at the issue of extended schools from a down to earth point of view It understands the difficulties that

schools face and the practical implications of what they're being asked to do. It aims to help school staff by providing a bank of resources and ideas which they can select from in order to make the job of delivering extended provision more manageable. It provides ideas and templates for each of the core offers and considers some of the health and safety issues involved. It provides practical assistance in applying for funding, publicising provision and working with other services. In summary, the book will help schools develop understanding of where the concept came from and what extended provision actually means, audit current provision and establish what to do next, find the capacity to develop their provision, utilise the experiences, facilities and resources provided by local services, voluntary groups, clubs and associations, develop the core offer of extended activities, develop the role of the extended schools coordinator, find ways of funding the role, evaluate the effectiveness of provision.

Village of Immigrants Diana R. Gordon, 2015-11-06. Greenport New York. A village on the North Fork of Long Island has become an exemplar of a little noted national trend: immigrants spreading beyond the big coastal cities, driving much of rural population growth nationally. In *Village of Immigrants* Diana R. Gordon illustrates how small town America has been revitalized by the arrival of these immigrants in Greenport where she lives. Greenport today boasts a population that is one third Hispanic. Gordon contends that these immigrants have effectively saved the town's economy by taking low skill jobs, increasing the tax base, filling local schools and patronizing local businesses. Greenport's seaside beauty still attracts summer tourists but it is only with the support of the local Latino workforce that elegant restaurants and bed and breakfasts are able to serve these visitors. For Gordon the picture is complex because the wave of immigrants also presents the town with challenges to its services and institutions. Gordon's portraits of local immigrants capture the positive and the negative with a cast of characters ranging from a Guatemalan mother of three including one child who is profoundly disabled to a Colombian house painter with a successful business who cannot become licensed because he remains undocumented. *Village of Immigrants* weaves together these people's stories, fears and dreams to reveal an environment plagued by threats of deportation, debts owed to coyotes, low wages and the other bleak realities that shape the immigrant

experience even in the charming seaport town of Greenport A timely contribution to the national dialogue on immigration Gordon s book shows the pivotal role the American small town plays in the ongoing American immigrant story as well as how this booming population is shaping and reviving rural communities
