Well In Time:

Well in Time Suzan Still, 2015-01-20 Through a series of telescoping stories *Well in Time* plunges back from the present day through medieval Europe to ancient Egypt in quest of the origins of an object of magical power. Novelist Calypso Searcy is gifted an ancient golden locket that confers the ability to know the future through dreams. It opens intriguing vistas into history but while writing her account of the locket's past disaster strikes in the present. Rancho Cielo, the ranch she and her lover Javier Carte have created with their own hands in Mexico's Copper Canyon, comes under attack by a Mexican drug cartel. Leaving Javier to defend the ranch with his army of hands, Calypso embarks with her friend Hill on a wild escape that takes them through remote and treacherous territory and delivers them into the hands of a mysterious group, the Ghosts, who may be more dangerous than the cartel from which they are fleeing. As the stories of the locket and of Calypso's escape weave together, parallels appear that cause her to question who she really is and what the real meaning of her life might be. The sequel to the acclaimed novel *Fiesta of Smoke*, *Well In Time* is based in actual historical events and in the wisdom of timeless mysteries known as the Perennial Philosophy. It is a singular reading experience. **Time's Well** Frank

George, 2015-12-04 The time is the not too distant future. The place is familiar yet very different. A cataclysm has happened and a new yet strangely old world has emerged. Legends continue to be played out. A novella in two main volumes, this is a tale of those legends. In the first volume, a man and a woman meet and go on a journey to fulfill their destinies. The first volume ends with the birth of their child. In the second volume, the child tells his story. The novella ends with the mother's reflection on what happened and the child's arrival at his destination. This is a tale that explores the nature of the cosmos through the unfolding of a familiar legend in an unfamiliar way. **Time Well Spent: A Modern Guide to Personal**

Stewardship Pasquale De Marco, 2025-08-12 In this fast-paced world, it's more important than ever to make the most of our time. But with so many demands on our attention, it can be difficult to know where to start. That's where Pasquale De Marco's new book *Time Well Spent: A Modern Guide to Personal Stewardship* comes in. This comprehensive guide provides you with everything you need to know about time management, from setting goals and priorities to overcoming procrastination and distractions. Pasquale De Marco draws on his years of experience as a time management consultant to share proven techniques and strategies that will help you get more done in less time. He also provides practical advice on how to apply these techniques to every area of your life, from your career to your personal relationships. With *Time Well Spent: A Modern Guide to Personal Stewardship*, you'll learn how to set clear goals and priorities, break down large tasks into smaller, more manageable ones, create a daily schedule that works for you, overcome procrastination and distractions, delegate tasks effectively, say no to non-essential commitments, make time for the things that are important to you. Whether you're a busy professional, a student, or a stay-at-home parent, *Time Well Spent: A Modern Guide to Personal Stewardship* has something to offer you. This book will help you get more done in less time so you can finally start living the life you've always wanted. Don't

Brandes,2016-08-19 Scientific Study from the year 2025 in the subject Ethnology Cultural Anthropology language English abstract Many Mayanists challenge Diego de Landa s statement that the Maya had an extra day at the end of every 4th year Puuc style data lead to the Yucatecan Calendar with corrections of the second and third order to the vague solar calendar year this by switching patronages after two Calendar Rounds and by a jump over a patronage after four Double Calendar Rounds Each Calendar Round was counted by 52 vague years while the corrections the intercalary days were lived and administered by the ritual calendar in hiding in the back ground For an eternal solar calendar year the first correction every 4th year is requested and had been provided it seems as stated by D de Landa The patronages from the start of the reform to the conquest were kaban ben muluk chikchan kib was skipped eb lamat kan In order to distinguish the two Calendar Rounds of a pair the first was counted by current time as ordinal numbers and the second by elapsed time as cardinal numbers The calendar reform was completed by two switches in the long time count at first by the one of the elapsed time undercount Long Count to the current time overcount Short Count and later by the one from 20 tun to 24 haab making the calendar only

dependent on the cycle of the sun With this step the calendar priests of the Rio Bec Chenes and Puuc region implemented the very first eternal solar calendar by 1140 about 450 years earlier than the one by Pope Gregory XIII For the Yucatecan Calendar exist two nodal points of early colonial time the year Ah Pula died and the year Merida was founded Based upon these dates a new correlation for the Yucatecan and all Maya Calendars and the Christian is given as far as the years are concerned For the days in the year D de Landa's other statement of the calendar is applied the Maya started the year on July 16th of the Julian Calendar This correlation yields dates in the Christian Calendars 80 years earlier than by the G M T
