*The Grand Scam* Rob Rose, 2013-11-20 From 2005 to 2009 the heir to one of South Africa's blue blood families Barry Tannenbaum methodically constructed the largest ever con in South African history. The Grand Scam exposes details about the brazen greed of the scammers, a bank that facilitated the shady dealings rather than alerting the authorities and the naivety of business people who should have known better. It goes far beyond the original news stories containing original research and material that for the first time answers the central question of why Barry Tannenbaum, the grandson of the founder of one of the country's biggest pharmaceutical firms Adcock Ingram, offered investors stratospheric returns of more than 200 per cent a year by investing in the components used to make AIDS drugs. It was nothing more than a lie which suckered the country's business elite including the former CEO of Pick n Pay, the one-time head of the Johannesburg Stock Exchange and the ex-boss of OK Bazaars. After the bubble popped in June 2009, finance minister Pravin Gordhan announced that hundreds of investors in South Africa, Australia and Europe had ploughed more than R12.5 billion into Tannenbaum's scheme based on the empty promise of immense riches. Dwarfing the Brett Kebble rip-off Fidentia and the Krion pyramid scheme, it proved to be the most embarrassing financial disaster in the country's history and it exposed holes in a banking and financial system billed as one of the safest in the world. For Tannenbaum's victims, the nightmare continued after the scheme collapsed as liquidators, tax officials and criminal investigators demanded their pound of flesh. But Tannenbaum, now at large on Australia's Gold Coast, continues to live as if nothing happened, working for an Australian insurance company. The question that hasn't been answered until now is how did Tannenbaum swindle so many people with such ease? And more crucially, why did he do it? Through extensive interviews with his family, friends and numerous investors, this book provides the startling answers to those questions. For the first time, the real motivation that fuelled South Africa's Bernie Madoff is laid bare.

**Africa's Dependency Syndrome** Mhango, Nkwazi N., 2017-08-16 There are milliards of off beam assumptions that Africa will always remain immobile in development of whatever type This pseudo take has mainly been propounded by Western thinkers in order to dubiously make Africans internalise and reinforce this flimsy and flimflam dependency Africa needs to embark on paradigm shift and tweak and turn things around Africa has what it take to do so quickly especially now that new economic powers such as China and India are evolving as counterweight to the West Shall Africa use these new economic forces to its advantage based on fair and win win cooperation To do so Africa must make sure that it does not slink back into business as usual vis a vis beggarliness dependence frailty gullibility made up backwardness monkey business and pipedreams not to mention the nasty and narcissistic behaviours of its venal and navel gazing rulers Verily Africa needs inter alia to use its God

given gifts namely immense resources young population abundance of vast and unexploited amounts of land Equally Africa must without equivocation invest copiously and earnestly in its people the youth in the main Most of all Africa needs to shy away from all colonial carryovers and encumbrances This volume shows many ways through and by which Africa can inverse the current imbroglio cum no go it faces for the better and thereby actualise the dream of being truly independent and prosperous America Abroad Stephen G. Brooks, William C. Wohlforth, 2016-07-26

A decade and a half of exhausting wars punishing economic setbacks and fast rising rivals has called into question America's fundamental position and purpose in world politics Will the US continue to be the only superpower in the international system Should it continue advancing the world shaping grand strategy it has followed since the Cold War Or should it focus on internal problems America Abroad takes stock of these debates and provides a powerful defense of American globalism Since the end of World War Two world politics has been shaped by two constants America's position as the most powerful state and its strategic choice to be deeply engaged in the world But if America disengages from the world and reduces its footprint overseas core US security and economic interests would be jeopardized While America should remain globally engaged it has to focus primarily on its core interests or run the risk of overextension A bracing rejoinder to the critics of American globalism a more potent force than ever in the Trump era America Abroad is a powerful reminder that a robust American presence is crucial for maintaining world order The Norm Chronicles Michael Blastland, David Spiegelhalter, 2014-06-03

Is it safer to fly or take the train How dangerous is skydiving And is eating that extra sausage going to kill you We've all heard the statistics for risky activities but what do they mean in the real world In The Norm Chronicles journalist Michael Blastland and risk expert David Spiegelhalter explore these questions through the stories of average Norm and an ingenious measurement called the MicroMort a one in a million chance of dying They reveal why general anesthesia is as dangerous as a parachute jump giving birth in the US is nearly twice as risky as in the UK and that the radiation from eating a banana shaves 3 seconds off your life An entertaining guide to the statistics of personal risk The Norm Chronicles will enlighten anyone who has ever worried about the dangers we encounter in our daily lives **The Rise of China** Douglas C.
