Invariance, Markedness and Distinctive Feature Analysis Yishai Tobin, 1994-12-15 This volume provides a new kind of contrastive analysis of two unrelated languages English and Hebrew based on the semiotic concepts of invariance markedness and distinctive feature theory It concentrates on linguistic forms and constructions which are remarkably different in each language despite the fact that they share the same familiar classifications and labels Tobin demonstrates how and why traditional and modern syntactic categories such as grammatical number verb tense aspect mood and voice conditionals and interrogatives etc are not equivalent across languages It is argued that these so called universal concepts function differently in each language system because they belong to distinct language specific semantic domains which are marked by different sets of semantic features The data used in this volume have been taken from a wide range of both spoken and written discourse and texts reflecting people s actual use of language presented in their relevant linguistic and situational contexts

The Oxford Handbook of Musical Theatre Screen Adaptations Dominic McHugh, 2019-06-14 Hollywood s conversion to sound in the 1920s created an early peak in the film musical following the immense success of The Jazz Singer The opportunity to synchronize moving

pictures with a soundtrack suited the musical in particular since the heightened experience of song and dance drew attention to the novelty of the technological development. Until the near collapse of the genre in the 1960s the film musical enjoyed around thirty years of development as landmarks such as *The Wizard of Oz*, *Meet Me in St. Louis*, *Singin' in the Rain* and *Gigi* showed the exciting possibilities of putting musicals on the silver screen. *The Oxford Handbook of Musical Theatre: Screen Adaptations* traces how the genre of the stage to screen musical has evolved starting with screen adaptations of operettas such as *The Desert Song* and *Rio Rita* and looks at how the Hollywood studios in the 1930s exploited the publication of sheet music as part of their income. Numerous chapters examine specific screen adaptations in depth including not only favorites such as *Annie* and *Kiss Me Kate* but also some of the lesser known titles like *Li'l Abner* and *Roberta* and problematic adaptations such as *Carousel* and *Paint Your Wagon*. Together the chapters incite lively debates about the process of adapting Broadway for the big screen and provide models for future studies. **President Nixon** Richard Reeves, 2002-10-10
PRESIDENT NIXON shows a man alone in a White House ruled by secrets and lies trying to impose old values at home and new balances of power everywhere in the world. Reeves proves that the Watergate scandal was no aberration in an administration foreshadowed by a series of successful uses of national security to cover coups, burglaries, lies, the abandonment of America's allies and even murder. Reeves portrays a man of vision and iron will who created, used and was used by a small cast of hard ambitious men who formed a poisonous circle around their insecure leader. Alone, Nixon challenged and changed the world's political and military balance while also plotting to destroy both the Democratic and Republican parties in an attempt to create secretly a new party of the centre. This account of Nixon's stewardship will stand as the balanced, authoritative portrait of an astonishing president and his ruined presidency. **G.K. Hall Bibliographic Guide to Dance** New York Public Library. Dance Division, 2001
