Gaitis, Carl F. Ingwalsen, Jr., Vivien B. Shelanski, 2014-01-01 This third edition of The College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration has been substantially expanded not only to ensure that it is up to date but also to incorporate several new chapters on diverse subjects including intratribunal relations arbitrators fees eDiscovery and hybrid arbitration processes Summary of New Material Twice as long as the second edition Substantial revision and expansion of existing chapters Four new chapters Arbitrators Fees Expenses eDiscovery Intratribunal Relations Hybrid Arbitration Proceedings Updated to take into account evolving case law and to address newly emerging issues relating to the management of commercial arbitrations Comparative tables regarding certain aspects of in major international rules and international arbitration institution policies Revised to take into account The new 2013 CPR Administered Arbitration Rules The 2013 revisions to the AAA Commercial Rules Various protocols and guidelines relating to domestic commercial arbitration The 2011 revisions to the JAMS International Rules The 2012 revisions to the ICDR Articles The 2010 revisions to the UNCITRAL Rules The 2013 IBA Guidelines on Party Representation in International Arbitration The 2010 revisions to the IBA Rules on the Taking of Evidence in International Arbitration Various protocols and guidelines relating to domestic commercial arbitration The aim of the Guide is to identify best practices that arbitrators can employ to provide users of arbitration with the highest possible standards of economy and fairness in the disposition of business disputes This third edition of the Guide refines the guidance contained in the first and second editions to take into account developing case law revised institutional rules advancements in arbitration techniques and thinking and also addresses newly evolving issues such as electronic discovery There are significant differences in the ways in which arbitrations are conducted in different substantive fields of commerce and among different arbitrators in the same field Techniques that are appropriate and useful in one case may be quite unsuited to another For this reason it is not possible to prescribe a single set of best practices that commercial arbitrators should invariably follow in every case Rather this Guide attempts to identify the

principal issues that typically arise in each successive stage of an arbitration and to explain the pros and cons of various preferred ways of handling each issue From this perspective the best practice for an arbitrator is to carefully consider the merits of alternative techniques available for dealing with a particular issue and to then select the technique best suited to the situation In addition the Guide attempts to identify the full array of practices available for use in complex arbitrations which can be adapted and streamlined for simpler cases Formed in 2001 the College of Commercial Arbitrators is a non profit organization composed of prominent experienced commercial arbitrators who believe that a national association of commercial arbitrators can provide a meaningful contribution to the profession to the public and to the businesses and lawyers who depend on arbitration as a primary means of dispute resolution Its mission includes promoting professionalism and high ethical practice in commercial arbitration adopting and maintaining standards of conduct providing peer training and professional development and developing and publishing best practices materials This work is the College s principal vehicle for fulfilling several aspects of its mission Many seasoned and knowledgeable practitioners generously contributed their time and insights to the creation of this Guide

The challenge of drafting purchase price adjustment clauses in merger & acquisition contracts Alexander W. Nürk, 2008-08-25 Inhaltsangabe Introduction The topic of Mergers and Acquisitions M A is currently on everyone s lips No day passes by without reading about a planned or realised M A transaction in the newspapers The last few years have been record years for the M A business The year 2007 could in fact top the record year of 2006 Although the first half of 2007 was remarkably successful the subprime crisis of the credit markets led to a slow down in the second half However M A transactions with a transaction volume of approximately 4 830 billion took place worldwide in 2007 The forecasts for 2008 expect a recession of the transaction volume of up to 25 % of the previous year Mega deals will not make the headlines as often as in 2007 because banks became more careful in granting credits for such deals due to the subprime crisis However M A International INC MAI expects that the subprime crises will have only little impact on small and medium sized M A transactions and 2008 will still be a good year for the M A business Various companies have also taken advantage of the weak U S Dollar exchange rate and plan M A deals overseas Since the wind has not yet been taken out of the M A businesses sails the challenge of performing a successful M A transaction remains Like any other businesses M A transactions are a dynamic process which has to be accounted for When a buyer purchases a company target the assets of the company cannot be held in stasis until the transaction is settled The company is in a constant flow and its value changes constantly This makes it hard to determine a precise purchase price that remains valid from the beginning until the end of the transaction process Since the value of the company changes through this process the purchase price has to be adjusted Therefore purchase price adjustment tools have to be part of the M A contract to ensure so Generally legal counsels are assigned to draft M A contracts for the parties Although an M A team should consists not only of lawyers but also of accountants tax consultants and others where every member is specialised in a certain field the legal counsel should have a general overview since he is the one drafting the contract The quality of his drafting becomes apparent when disputes arise Most lawyers have no clue about company valuation methods or the principles of orderly accounting However these two applications are essential when it comes to drafting
