Sony vs Samsung Sea-Jin Chang, 2011-02-25 Sony vs Samsung is business history at its best. It explores the divergent fortunes of these two electronics giants in the last decade and identifies the true reasons behind Sony's decline and Samsung's rise. Contrary to popular belief, Chang shows that success or failure does not simply arise from different strategies. Rather, it emerges from major decisions that are deeply rooted in the companies' organizational processes and their executives' political behavior. This book is a must read for any senior executive. Constantinos Markides, Robert P. Bauman, Professor of Strategic Leadership and Chairman, Strategy Department, London Business School. Sea Jin Chang has produced that rarity in a business book: one that is as valuable to practicing managers as it is insightful to academic researchers. In this fascinating comparison of two modern global giants, he applies his high-resolution research microscope to their changing fortunes by dissecting their contrasting strategies and providing interesting insights into their divergent organizational processes and management practices. This is a very valuable contribution to the international business literature. It will end up in as many corporate boardrooms as faculty seminars. Christopher A. Bartlett, Thomas D. Casserly, Professor Emeritus, Harvard Business School. Sea Jin Chang has written a fascinating comparison of Sony and Samsung that will be valuable to anyone interested in strategy, organizations, or international business. The interwoven and very detailed case studies of two very different companies in overlapping industries illuminate problems such as adaptation to technological change, analog to digital, organizational flexibility, and globalization. His attempt to analyze both strategic development and implementation is successful and very useful. Both academics and practitioners will learn a lot from this book. Stephen J. Kobrin, William Wurster, Professor of Multinational Management, The Wharton School, University of Pennsylvania. Refreshingly original and entertaining, this book analyzes major strategic decisions of Samsung and Sony and highlights organizational processes and top management leadership that have shaped their performances. This is a must read for all executives who want to understand the strengths and weaknesses of Asian competitors. It also provides penetrating insights to other Asian companies with global ambitions. Myoung Woo Lee, President and CEO, Irivier.

The New Television Technologies Lynne S. Gross, 1990 *How It Works* Robert P. Fairbanks, 2009-09-15 Of the some sixty thousand vacant properties in Philadelphia, half of them are abandoned row houses. Taken as a whole, these derelict homes symbolize the city's plight in the wake of industrial decline. But a closer look reveals a remarkable new phenomenon: street-level entrepreneurs repurposing hundreds of these empty houses as facilities for recovering addicts and alcoholics. *How It Works* is a compelling study of this recovery house movement and its place in the new urban order wrought by welfare reform. To find out what life is like in these recovery houses, Robert P. Fairbanks II goes inside one particular home in the Kensington neighborhood. Operating without a license and unregulated by any government office, the recovery house provides food, shelter, company, and a bracing self-help philosophy to addicts in an area saturated with drugs and devastated by poverty. From this starkly vivid close-up, Fairbanks widens his lens to reveal the

intricate relationships the recovery houses have forged with public welfare the formal drug treatment sector criminal justice institutions and the local government NASA Tech Briefs, 2005 **Tbd** Shusuke Hayashi, Junpei Nakamura, Makoto Takahashi, Nobuo Karaki, Hideaki Asada, Hiroshi Haga, Tomoyuki Tachikawa, Kyuha Chung, Reiji Hattori, Reiji Asakura, Satofumi Koike, Susumu Tsujihara, Minsun Yoo, Norio Ikari, Tadashi Imai, Toshimasa Eguchi, Katsuji Takahashi, Mitsutaka Fujita, H.
