Locative Alternation Seizi Iwata,2008-06-09 The aim of the present volume is two fold to give a coherent account of the locative alternation in English and to develop a constructional theory that overcomes a number of problems in earlier constructional accounts The lexical constructional account proposed here is characterized by two main features On the one hand it emphasizes the need for a detailed examination of verb meanings On the other it introduces lower level constructions such as verb class specific constructions and verb specific constructions and makes full use of these lower level constructions in accounting for alternation phenomena Rather than being a completely new version of construction grammar the proposed lexical constructional account is an automatic consequence of the basic tenet of constructional approaches as being usage based *Mergent International Manual* ,2009 **The Mirror** Margaret Safo (Mrs.),2006-08-12 *Engineer's Complete Guide to PC-based Workstations* Gary A.
