arrived in her mailbox Each one told her about Zorg s latest experiments and the links he was making People on Earth and Zorg s home world told stories about them It showed that friendship doesn t care about time or place Over time their friendship grew stronger as they learned more about each other and the power of connection Zorg celebrated their eternal bond with a comet that flew by Earth in a very strange way Lastly the alien experiment was about more than just Zorg s idea of friendship It was about how their connection became a light of hope and unity that shaped their own worlds The story of Zorg and Lily has been told many times and it shows that relationships are one of the most amazing things in the world Their friendship showed that even though the universe is very big friendship can still reach across it and affect lives on many planets It also showed that the best finds are always the ones we share This is how the story starts A world with stunning views that would make a person from Earth s heart skip a beat used to be in the farthest reaches of space past the Milky Way In contrast to Earth this celestial body danced to its own cosmic beat instead of moving on its axis and its auroras made the sky look like a crazy mix of colors that humans can t understand In the middle of this otherworldly beauty lived an alien guy who was different from other people of the same species Zorg was a part of this world just like the stones that sparkled at night or the plants that sang as they swayed in the strange breezes It was true blue deeper than the ocean and brighter than the sky on a clear day Zorg s skin was beautiful His three eyes sparkled like gems and each one was a window into his soul They filled him with a light that was equal parts crazy wonder and uncontrollable curiosity The eyes did more than just see They thought watched and imagined What really set Zorg apart were his six very skilled arms Each one could move in beautiful fluid ways These arms and legs weren t just parts they were tools for exploring and learning and they all worked together perfectly Each arm could spin and whirl with the accuracy of a master craftsman so Zorg could use them to work on the complicated tools in his workshop For the people who lived in his world his arms were just a blur of movement like the rocks that were floating around without any care Zorg lived in a big hollow building that was half submerged in the middle of a huge clear crystal that pulsed with the planet s energy His apartment was full of tools and gizmos some of which were only partially put together and others were in different stages of repair Wires crossed each other across the floors like vines in a strange jungle and strange gadgets stayed in zero gravity ready for Zorg s quick fingers to call them up Zorg was interested in both amazing technological advances and the idea that there might be life outside of his own world A story says that there was once a world called Earth where people moved on two legs and water was solid instead of gas Zorg tried to understand these animals who seemed so different from him for many cycles He thought about how beautiful their sky was how rough their land was and how many stories they must have to tell His interest went beyond the things that were right in front of him Zorg was interested in nature Thanks to his many legs he was able to swim in seas full of bioluminescent life and climb mountains full of life He went on every trip to try to figure out a little more about the big puzzle that was his world People all over the world read about Zorg s trials He made drugs that let people see in three dimensions and engines that whispered

the secrets of warp speed His most ambitious invention so far was a device that could link worlds and open doors to other planets galaxies and opportunities He wanted to meet the animals from his favorite stories by going through the Nexus Conduit That s what he called it The other beings were both scared and amazed by Zorg They thought there was enough room in the universe to look into every nook and hole They didn t get why Zorg was so restless or why he had to spend his days researching and asking questions On the other hand Zorg was not pleased He was drawn to the stars and the stories they held by a calling Every night Zorg would sit under the planet s sparkling plants and look up at the sky with all three eyes He planned his trip figured out his path and dreamed of meeting people from cultures light years away In his heart he wanted to connect with people share knowledge and tell stories [Welcome to Elysian Fields](#) Diana Wyn Jones,2004-10 Her mission was to recover the Mysteries the Secret Knowledge of All Time In order to do this Sara Springtree had to step out of this present realm of time itself and into dimensions unexplored Sidestepping time opened the door to the Theater of All Possibility and a new history was told at the same hour that a new world was being born An explosion of immense proportion was about to happen and nothing could stop it History will tell us that Truth stands as testimony unto itself and we will all live to see the power behind that punch as these days unfold For the story is out now and everything is soon to change in this world we all live in Pandora s Box is Open **Reference Catalogue of Current Literature** ,1909 **The Reference Catalogue of Current Literature** ,1909 *Communicating for the Professions* G.
