The Man Who Organized Nature Gunnar Broberg, 2025-05-20. A vivid portrait of the life and work of Carl Linnaeus (1707-1778), known as the father of modern biological taxonomy. He formalized and popularized the system of binomial nomenclature used to classify plants and animals. Linnaeus himself classified thousands of species; the simple and immediately recognizable abbreviation 'L.' is used to mark classifications originally made by Linnaeus. This biography by the leading authority on Linnaeus offers a vivid portrait of Linnaeus's life and work. Drawing on a wide range of previously unpublished sources, including diaries and personal correspondence, as well as new research, it presents revealing and original accounts of his family life, the political context in which he pursued his work, and his eccentric views on sexuality. *The Man Who Organized Nature* describes Linnaeus's childhood in a landscape of striking natural beauty and how this influenced his later work. Linnaeus's Lutheran pastor father, knowledgeable about plants and an enthusiastic gardener, helped foster an early interest in botany. The book examines the political connections that helped Linnaeus secure patronage for his work and untangles his ideas about sexuality. These were not as often assumed an attempt to naturalize gender categories but more likely reflected the *laissez faire* attitudes of the era. Linnaeus, like many other brilliant scientists, could be moody and egotistical; the book describes his human failings as well as his medical and scientific achievements. Written in an engaging and accessible style, *The Man Who Organized Nature* provides new and fascinating insights into the life of one of history's most consequential and enigmatic scientists.

The Dastard Piers Anthony, 2018-12-18. Many malevolent menaces have imperiled the magical land of Xanth in its long and storied history. But none has been as despicably dangerous as the Dastard, a craven miscreant who sold his soul to a detestable demon for the power to erase events. Now the entire future of Xanth is at the mercy of his every whim. Only a young dragon girl named Becka has the power to stop his devious deeds. Becka is a crossbreed, the daughter of Draco, Dragon, and a lovely human woman who met by chance at a Love Spring. Now fourteen, Becka is beginning to wonder where in Xanth she belongs: on the ground with her mother's people or flying the skies with her father's kind. So she journeys to the Good Magician Humfrey to discover her True Purpose in life. Much to her astonishment and surprise, the Magician tells her that a great Destiny awaits her, one that will affect the future of all of Xanth.

Esrever Doom Piers Anthony, 2025-09-23. Piers Anthony's 37th adventure in Xanth changes the Mood to one of Doom. Kody woke up in a hospital bed, not knowing how he got there. Before his questions could be answered, he was told that he was about to undergo surgery and that there could be some side effects. And then he woke up again, this time in Xanth. Kody is the only person in Xanth who has not been affected by a dreadful spell that reverses how people see each other. What was adorable is now loathsome. What was ugly is

now beautiful What was loved is now hated Kody has clearly arrived just in time Only he has any hope of reversing the spell turning Esrever Doom into Reverse Mood At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
