Untaming Girlhoods Cristina Santos,2023-03-31 This is an interdisciplinary examination of depictions of girlhoods through a comparative study of foundational fairy tales revised and reimagined in popular narrative film and television adaptations The success of franchises such as The Hunger Games Twilight and Divergence have represented the young heroine as an empowered female and often a warrior hero in her own right Through a selection of popular culture touchstones this empowerment is questioned as a manipulation of feminist ideals of equality and a continuation of the traditional vision of female awakening centering on issues of personal choice agency physical violence purity and beauty By investigating re-occurring storytelling frameworks and archetypes Untaming Girlhoods examines different portrayals of girlhoods in the 20th and 21st century Anglo American cultural imaginary that configure modern girlhoods beyond the fairy tale princess or the damsel in distress into refigurations that venture away from the well trodden

path for a new breakaway path to authentic selfhood This will be a useful and enlightening text for students and researchers in Girlhood Studies Gender Studies Film Studies Popular Culture and Media Studies **The Grey Wolves Series Books**
