Remote Learning and Distance Education William H. Pruden III, 2024-11-14 Remote learning and distance education burst into the national consciousness with the onset of the COVID 19 pandemic yet it remains poorly understood in many ways Explore a range of debates around this timely topic including can remote learning models of educational instruction produce the same or better academic results than in school learning What are the socialization impacts of remote learning What do education experts think is the next frontier in remote learning This book explores those questions and many more Remote Learning and Distance Education provides the historical background and context for understanding the origins and evolution of distance education an evolution which was accelerated dramatically and in unpredictable ways when the COVID 19 pandemic transformed millions of actual classrooms into virtual ones Readers will better understand the problems controversies and solutions surrounding distance education from access and equity issues to maintaining academic integrity Profiles of key figures and organizations such as Khan Academy give readers an introduction to important players in this

potentially revolutionary approach to teaching and learning

Applying Data Science and Learning Analytics

Throughout a Learner's Lifespan Trajkovski, Goran, Demeter, Marylee, Hayes, Heather, 2022-05-06 Research in the domains of learning analytics and educational data mining has prototyped an approach where methodologies from data science and machine learning are used to gain insights into the learning process by using large amounts of data As many training and academic institutions are maturing in their data driven decision making useful scalable and interesting trends are emerging Organizations can benefit from sharing information on those efforts Applying Data Science and Learning Analytics Throughout a Learner's Lifespan examines novel and emerging applications of data science and sister disciplines for gaining insights from data to inform interventions into learners journeys and interactions with academic institutions Data is collected at various times and places throughout a learner's lifecycle and the learners and the institution should benefit from the insights and knowledge gained from this data Covering topics such as learning analytics dashboards text network analysis and employment recruitment this book is an indispensable resource for educators computer scientists faculty of higher education government officials educational administration students of higher education pre service teachers business professionals researchers and academicians

College Made Whole Chris W. Gallagher, 2019-09-24 How can universities shape creative adaptive integrated learners ready to confront the world This book's clear eyed optimism is a challenge to everyone in higher education American higher education is being torn apart Institutions curricula courses and faculty roles are being unbundled broken into constituent parts in the name of efficiency and cost savings As a result the college learning experience is fragmented and incoherent leaving graduates less and less equipped to confront the dire social problems that cause those divisions in the first place In College Made Whole Chris W Gallagher lays bare the dangers of the dis integration of the college experience and shows how we can put higher education back together again The successful colleges and universities of the future Gallagher argues will be integrated coherently and cohesively designed to help students achieve a lifelong learning experience that is more than the sum of its parts Pushing back against pernicious dichotomies that frame much discussion of US higher education Gallagher critiques many of the hottest educational trends including the overhyping of technological solutions rampant adjunctification the promotion of nondegree credentials as a suitable replacement for college degrees and the increasingly narrow focus on the vocational aims of a college education Investigating the purposes of higher education historically and today he suggests audacious proposals to enhance learning including reorganizing institutions reordering institutional priorities redesigning curricula and courses and rethinking edtech and learning technologies Lucidly written and packed with practical recommendations and real student stories College Made Whole will challenge higher education professionals and policy makers as well as anyone with a stake in the future of US higher education which is to say all of us who inhabit this fragile planet
