What Are In Sesotho Paper For 23:

The Crosslinguistic Study of Language Acquisition Dan Isaac Slobin, 2022-03-01 Extending the tradition of this series which has become a standard reference work in language acquisition this volume contains chapters on seven more languages including a section on ergative languages Languages in this volume include Georgian Greenlandic Kiche Mayan Warlpiri Mandarin Scandinavian and Sesotho

The People's Paper Peter Limb, 2012-09-01 This much awaited volume uncovers the long lost pages of the major African multilingual newspaper Abantu Batho Founded in 1912 by African National Congress ANC convenor Pixley Seme with assistance from the Swazi Queen it was published up until 1931 attracting the cream of African politicians journalists and poets Mqhayi Nontsisi Mkgweth and Grendon In its pages burning issues of the day were articulated alongside cultural by ways The People's Paper comprising both essays and an anthology explores the complex movements and individuals that emerged in the almost twenty years of its publication The essays contribute rich new material to provide clearer insights into South African politics and intellectual life The anthology unveils a judicious selection of never before published columns from the paper spanning every year of its life and drawn from repositories on three continents Abantu Batho had a regional and international focus and by examining all these dynamics across boundaries and disciplines The People's Paper transcends established historiographical frontiers to fill a lacuna that scholars have long lamented

Selves in Question Judith Lutge Coullie, Stephan Meyer, Thengani H. Ngwenya, Thomas Olver, 2006-05-31 Wide ranging and engaging Selves in Question considers the various ways in which auto biographical accounts situate and question the self in contemporary southern Africa The twenty seven interviews presented here consider both the ontological status and the representation of the self They remind us that the self is constantly under construction in webs of interlocution and that its status and representation are always in question The contributors therefore look at ways in which auto biographical practices contribute to placing understanding and troubling the self and selves in postcolonies in the current global constellation They examine topics such as the contexts conducive to production processes the contents and forms of auto biographical accounts and finally their impact on the producers and the audience In doing so they map out a multitude of variables including the specific historical juncture geo political locations social positions cultures languages generations and genders in their relations to auto biographical practices Those interviewed include the famous and the hardly known women and men writers and performers who communicate in a variety of languages Afrikaans English Xhosa isiZulu Sesotho and Yiddish An extensive introduction offers a general framework on the contestation of self through auto biography a historical overview of auto biographical representation in South Africa up to the present time an outline of theoretical and thematic issues at stake in southern Africa auto biography and extensive primary and secondary biographies Interviewees Breyten Breytenbach Dennis Brutus Valentine Cascarino Vanitha Chetty Wilfred Cibane Greig Coetzee J M Coetzee Paul Faber David Goldblatt Stephen Gray Dorian

Cotterill,2002-10-09 Linguists and lawyers from a range of countries and legal systems explore the language of the law and its participants beginning with the role of the forensic linguist in legal proceedings either as expert witness or in legal language reform Subsequent chapters analyze different aspects of language and interaction in the chain of events from a police emergency call through the police interview context and into the courtroom as well as appeal court and alternative routes to justice A broad based coherent introduction to the discourse of language and law **Phrase Structure and the Lexicon** J. Rooryck,Laurie Zaring,2013-03-14 V ThemelPatients to the lowest specifier of V and Agents to a position outside the minimal VP Again thematic information is encoded in terms of configurational properties Addressing the issue of phrase structure in another domain Margaret Speas investigates the status of null pronominal objects in Navajo Following Rizzi 1986 she assumes that null pronouns must meet both a licensing and an identification condition More specifically she demonstrates that distributional restrictions on null pronominal objects in Navajo can be explained if it is assumed that null objects obey the identification condition expressed by the Generalized Control Rule of Huang 1984 Distinguishing three types of null objects she argues that relevant licensing condition on two

subtypes of null objects involves rich agreement However it appears that there are languages lacking rich agreement but with pro in object position Speas accounts for these phenomena by a rule of economy of projection A second series of papers is concerned with the way in which functional categories derive aspects of sentential interpretation Three issues in this research program are investigated here external arguments as arguments of functional projections Kratzer the specificity interpretation of clitics Sportiche and the interpretation of tense Stowell In all three cases phrase structure is put to use to derive interpretive effects Angelika Kratzer proposes that external arguments are not part of the verb The Acquisition of Numeral Classifiers Kasumi Yamamoto,2011-05-03 The book is about the numeral classifier system and the acquisition of Japanese classifiers by Japanese children It consists of two parts First it provides a general typological characterization of numeral classifier phrases and discusses problems in determining what constitutes the nature of classifiers It also discusses the semantic properties of numeral classifiers based on an analysis of four languages from four different language families Second it examines the acquisitions of Japanese numeral classifiers by Japanese preschool children ages 3 to 6 with a primary emphasis on the development of comprehension The importance of the study is that it reveals that young children have a much greater sensitivity to the conceptual underpinnings of the numeral classifier system than was previously considered to be the case The research results also provide a converging source of evidence that young children often come to initially grasp the structure of the world in ways that are better understood in cognitive than perceptual terms The implications will contribute to not only the area of language acquisition but also categorization and conceptual development
