After staying by her side in the hospital for over a year, he has found himself in love with her, but when she awakens, she has no idea who he is. Lothlorien, 2012-08-01 Sure Claire Beau thought about sleeping with her doctor. With his moss green eyes and sexy petulance, neurologist Brendan Charmant is definitely worth fantasizing about. But she didn't actually do it. Did she? Claire should be able to answer this relatively simple question, but she has no idea. All she knows is that she met him in a sleep lab for an appointment one day and woke up at home seven weeks later to find that he's suddenly her warm and loving boyfriend instead of her cold and remote doctor. According to Brendan, her brother and all their friends, Claire is in the middle of a whirlwind love affair with him, a claim bolstered by the weeks of steamy emails and text messages. The two of them have exchanged. But to Claire, he's just the arrogant doctor with only a passing interest in finding a diagnosis for her debilitating symptoms. Claire Beau is afflicted with Sleeping Beauty Syndrome, a mysterious disorder that causes her to sleep for days at a time and black out for entire weeks. Dr. Brendan Charmant might have given her the best night or two or three of her life, but she has no memory of ever seeing him out of his white coat. Still, she can't help finding herself more than willing to fall for him again. After all, doesn't every girl deserve a Prince Charming? But when Brendan is arrested and she discovers that she's the alleged victim of a heinous crime that she can't recall, she's crushed to find that her dream come true was all just a cruel illusion. Despite having no memory of the actual crime, there are mountains of damning evidence against him. So why is she risking everything to save both of them from this hellish waking nightmare? *ReThe Sleeping Beauty*, 2018-02-02 The
