Instructions For Fixing The “Does Not Advance” Dilemma with Kodak Slide Projectors

by: Curt Fargo

Introduction

These instructions are designed to help you fix a 1966-1981 vintage Kodak Carousel Slide Projector which does not advance. If your projector is of this series, it will have a hinged handle on the front next to the lens, like in the photo above and will be black or grey, or it will have imitation wood grain side panels. If your projector has a model number that is greater than 1000, or is a 5XX series or is an Ektagraphic III, it is **NOT** covered by these instructions. The model 600 and 600H were part of this same series, but they do not have this issue.

The “does not advance” problem is caused by a plastic part called the “Cycle Solenoid Link” that gets brittle and breaks due to age.

You can confirm that your projector has this issue by pressing the forward and/or reverse buttons while there is NO tray on the projector and by observing the Indexer Lever (tray advance arm).

You may very well hear a click when depressing the buttons, but the Indexer Lever will not move. If your indexer lever moves,

then the issue isn't the cycle solenoid link, but possibly a defective slide tray. Kodak's 140 slide trays have problems of their own and are not recommended. Use the 80 trays.

If you have determined that your projector is covered by these instructions, we need to next determine if your projector has remote or auto-focus as a feature. This is to determine if you need to buy the four piece repair kit with the focus gears, or just the two piece kit. If your projector has focus gears, they will also need to be replaced, as they are sure to be brittle.

The Carousel 650/650H & Ektagraphic E/E-2 require the two piece kit. All other models have either remote and/or auto-focus and require the four piece kit as shown above.

Tools Needed:

- #2 Phillips Screwdriver
- #1 Phillips Screwdriver
- 1/4" Nut Driver
- 1/4" Combination Wrench
- Hemostats
- Small Side Cutters
- Spring Hook
- Pliers
- Small Metal Block
- Small Hammer
- 1/4" Socket on a Long Extension

For regular maintenance while you are in there, you will need the following:

- Super Lube Grease
- Needle Applicator for the Grease
- Light Oil

When it comes to the recommended lubricants, Kodak recommended “Super Lube” for the grease and they were not particular on the light oil. Before going out and buying more tools, read through these instructions and see how they are used and you may find something else in your tool box that will accomplish the same task. For example, I rarely use the combination wrench but instead use an extra-long reach nut driver in some areas and a flexible shaft nut driver in other areas.

Installation Art and the Museum Vivian Saaze, 2025-10-01 Installation art has become mainstream in artistic practices. However, acquiring and displaying such artworks implies that curators and conservators are challenged to deal with obsolete technologies, ephemeral materials, and other issues concerning care and management of these artworks. By analysing three in-depth case studies, the author sheds new light on the key concepts of traditional conservation: authenticity, artist's intention, and the notion of ownership, while exploring how these concepts apply in contemporary art conservation. Based on original empirical research and cross-case analysis, this ground-breaking study offers a re-examination of traditional conservation values and ethics and argues for a reassessment of the role of the conservator of contemporary art. Interpretive design guides, 1984 **Popular Photography - ND**, 1956-06 A training of trainers manual to develop capacities in gender sensitive rural advisory services Food and Agriculture Organization of the United Nations, World Health Organization, 2017-01-01 This manual provides guidance for organizing and facilitating training of trainers in gender sensitive rural advisory services design and delivery. It has been developed as part of the FAO project Capacity Development Support to Rural Women on the Socio-economic and Gender Aspects of Sustainable Rural Development, which was implemented in Turkey and Azerbaijan in 2014-16. The project was realized under the FAO Turkey Partnership Programme and financed by the Government of Turkey. The manual is based on the pilot trainings carried out in Turkey and Azerbaijan and is intended to help meet the needs for training guidelines specifically designed for strengthening the gender sensitivity of rural advisory services. The guidelines are developed to be applied not just to one country situation but for easy adaptation and use in strengthening advisory services globally. The manual content is organized into three main sections. Section 1 introduces the manual; section 2 provides detailed guidelines for all stages of a workshop design and preparation; and section 3 is a step-by-step programme for delivery of a four-day workshop. A final section of annexes includes sample training materials, sample slide presentations, and notes for use in workshop delivery, a glossary of gender-related terminology, and useful references and resource material on gender and agriculture. **Handbook for Teachers in Universities and Colleges** David Newble, Robert Cannon, 2013-10-15 First Published in 2000 This is the fourth edition of a handbook that has already become well known to many academic staff. Its popularity rests on the way it presents ideas about teaching and learning underpinned by research findings but in a form that provides detailed helpful advice for teachers in higher education. The Handbook could be used to support any of the many training programmes being introduced into colleges and universities around the world, as indeed previous editions have already done. The various chapters focus on the specific skills that are dealt with in such programmes: large group and small group teaching methods, of assessment, and so on. They also include advice on how to present conference papers, an area where advice seems sorely lacking. *Marine Battle Skills Training Handbook, Book 1, PVT-CAPT, General Military Subjects With User's Guide, September 1999*, 2000 **Official**
