Performance Mark Geldof, 2025-06-09 This book collects together all contemporary and near contemporary accounts of the 1467 emprise a particular performative feat of arms between Anthony Woodville Lord Scales brother of Elizabeth Woodville wife of King Edward IV of England and Antoine Grand Bastard of Burgundy natural son of Duke Philip the Good of Burgundy Held at Smithfield London this emprise has long interested historians of chivalry because of the detailed accounts of its organization and the commentaries on the combats held over two days Despite its familiarity to readers of late medieval English and European history the accounts themselves have not historically been easily accessible and several of them have never appeared in translation in English before now This collection gathers those accounts presents them in readable English editions and gives historical contexts for their content *Iron Age*, 1923 *Be My Enemy* Ian McDonald, 2012-09-25 The next installment of the multiple award winning author's exciting YA series Everett Singh has escaped with the Infundibulum from the clutches of Charlotte Villiers and the Order but at a terrible price His father is missing banished to one of the billions of parallel universes of the Panoply of All Worlds and Everett and the crew of the airship Everness have taken a wild random Heisenberg Jump to a random parallel plane Everett is smart and resourceful and from a frozen earth far beyond the Plenitude he plans to rescue his family But the villainous Charlotte Villiers is one step ahead of him The action traverses the frozen wastes of iceball earth to Earth 4 like ours except that the alien Thryn Sentiency occupied the moon in 1964 to the dead London of the forbidden plane of Earth 1 where the remnants of humanity battle a terrifying nanotechnology run wild and Everett faces terrible choices of morality and power But Everett has the love and support of Sen Captain Anastasia Sixsmay and the rest of the crew of Everness He learns that the deadliest enemy isn't the Order or the world devouring nanotech Nahn it's yourself From the Hardcover edition **Making Domesday** Stephen Baxter, Julia Crick, C. P. Lewis, 2025-04-12 Making Domesday presents a fresh interpretation of William the Conqueror's survey of England made possible by a major collaborative study and a new online edition of Exon Domesday the earliest of the three original manuscripts to survive from the Domesday survey The book addresses big questions about pre-modern government written records and the use of intelligence in both senses the minds behind the planning and execution of Domesday and the information about England that Domesday gathered It characterizes Exon as the surviving part of the working papers of one of the writing offices that over a period of ten weeks in summer 1086 dealt with all seven circuits regional groupings of shires of the Domesday survey The circuit offices had the task of recasting the manorial descriptions assembled in an earlier stage of the survey into an interim form intended for further redaction as Great Domesday Book by rearrangement rewording and abbreviation A new deep understanding of the codicology and palaeography of Exon underpins every part of the analysis and offers a model of documentary production for royal government at an exceptionally early period in western Europe Part I describes and analyses each Exon text in unprecedented detail Part II places Domesday in context and in broad comparative perspective ranging across and beyond the Latin West The dual approach provides a new interpretation of Domesday and a

deeper understanding of both the Domesday survey and Domesday Book It emerges that the survey was even more complex than we had dared to imagine involving the production of different kinds of text intended to meet a range of fiscal and political needs It is also clear that the survey was immediately effective transforming the politics of land in a newly conquered society Domesday has always been thought awesome as its very name shows Making Domesday contends that it was also a feat of intelligent government deployed by an aggressive and ambitious regime As such it speaks to broader concerns with the colonial domination of conquered societies through the purposeful collection of systematic statistical information **Business India** ,2008-07
