Uptown Special Explicit:

Prince FAQ Arthur Lizzie, 2020-06-15 Here is the first comprehensive book that covers Prince's forty plus personal and professional years in and out of the public spotlight. Firmly grounded in a detailed chronological overview of Prince's prodigious released and unreleased recorded musical output and epic live performances, **Prince FAQ: All That's Left to Know About the Purple Reign** digs deep into Purple fact and legend as it explores the multiple number one singles, the movie hits and flops, the exclusive and adventurous after shows and the provocative TV appearances. But more than just a look at the music and moving images, this volume also highlights Prince's relationship with those in the Purple Court, the Revolution, New Power Generation, Third Eye Girl and other band members, his musical influences from Santana to Stevie to the Stones, the countless individual Christopher Tracy and group aliases Madhouse, Protégés, Carmen Electra, the cover artists, the Bangles and recovery projects Mavis Staples and the wives, lovers and multiple intriguing ones. And then there are the controversies, the rivalries with Rick James and Michael Jackson, the USA for Africa snub, the questions surrounding his untimely death, the fate of countless unreleased audio and video projects and of course his battle against Warner Bros and the music industry that caused him to change his name to an unpronounceable symbol. Accompanied by dozens of rare images, **Prince FAQ** is the go-to volume for all things Prince.

VBA Excel Programming Ray Lee, 2013-06 Attention! Please purchase the ebook at the following link: <https://www.copysafe.net/shop/prod.asp?prod=103671>. Cat 73. Google Books is only an intermediary in terms of sales and especially of this ebook's proprietary format. Enclosed is much better to buy the ebook at the link rather than here. If you work with numeric data in Excel and constantly run into data problems that take too long to fix, you should think about using VBA to speed through your problems. This is a formal and practical training guide that takes you from syntax rules to contextual illustrations. The most frequently used objects and useful concepts are exposed to show you how they might be used in the real world. Time-saving shortcuts, syntax subtleties and programming implications are thoroughly annotated. This ebook gives more than basic demonstrations of syntax usage; a strong focus is given to Excel object manipulations and these operations are covered in complete sets of operations while it's meaningful to show how to delete a column but a corporate problem typically requires you to find multiple columns that match some criteria before deleting them, so it's more meaningful if a demonstration shows how you might go about solving the problem from start to finish rather than showing a few lines of code for only the deletion itself. This ebook gives such comprehensive content. The typical Excel user doesn't need to create overly complex solutions; for this reason, this manual doesn't cover peripheral topics that either extend VBA's reach or substitute it in impractical ways. This ebook is not too trivial but not too heavy, either topic-wise and computationally. VBA is a simple programming language but the complexity of writing intelligent and reusable code is still a hurdle. Ultimately, you need to tell VBA what to do for it to do its magic; this is where the challenge is. This manual helps overcome that discounted complexity.

Pushing Cool Keith Wailoo, 2021-11-02 Spanning a century, **Pushing Cool** reveals how the twin deceptions of

health and Black affinity for menthol were crafted and how the industry's disturbingly powerful narrative has endured to this day. Police put Eric Garner in a fatal chokehold for selling cigarettes on a New York City street corner. George Floyd was killed by police outside a store in Minneapolis known as the best place to buy menthols. Black smokers overwhelmingly prefer menthol brands such as Kool Salem and Newport. All of this is no coincidence. The disproportionate Black deaths and cries of "I can't breathe" that ring out in our era because of police violence, COVID-19, or menthol smoking are intimately connected to a post-1960s history of race and exploitation. In *Pushing Cool*, Keith Wilcox tells the intricate and poignant story of menthol cigarettes for the first time. He pulls back the curtain to reveal the hidden persuaders who shaped menthol buying habits and racial markets across America: the world of tobacco marketers, consultants, psychologists, and social scientists, as well as Black lawmakers and civic groups including the NAACP. Today, most Black smokers buy menthols, and calls to prohibit their circulation hinge on a history of the industry's targeted racial marketing. In 2009, when Congress banned flavored cigarettes as criminal enticements to encourage youth smoking, menthol cigarettes were also slated to be banned. Through a detailed study of internal tobacco industry documents, Wilcox exposes why they weren't and how they remain so popular with Black smokers.

Lillian Wald Marjorie N. Feld, 2012-09-01. Founder of Henry Street Settlement on New York's Lower East Side as well as the Visiting Nurse Service of New York. Lillian Wald (1867-1940) was a remarkable social welfare activist. She was also a second-generation German Jewish immigrant who developed close associations with Jewish New York, even as she consistently dismissed claims that her work emerged from a fundamentally Jewish calling. Challenging the conventional understanding of the Progressive movement as having its origins in Anglo-Protestant teachings, Marjorie Feld offers a critical biography of Wald in which she examines the crucial and complex significance of Wald's ethnicity to her life's work. In addition, by studying the Jewish community's response to Wald throughout her public career from 1893 to 1933, Feld demonstrates the changing landscape of identity politics in the first half of the twentieth century. Feld argues that Wald's innovative reform work was the product of both her own family's experience with immigration and assimilation as Jews in late nineteenth-century Rochester, New York, and her encounter with Progressive ideals at her settlement house in Manhattan. As an ethnic working on behalf of other ethnics, Wald developed a universal vision that was at odds with the ethnic particularism with which she is now identified. These tensions between universalism and particularism, assimilation and group belonging, persist to this day. Thus, Feld concludes with an exploration of how, after her death, Wald's accomplishments have been remembered in popular perceptions and scholarly works. For the first time, Feld locates Wald in the ethnic landscape of her own time as well as ours.
