A Guide to Planning for Community Character Lane H. Kendig, 2012-09-26 A Guide to Planning for Community Character adds a wealth of practical applications to the framework that Lane Kendig describes in his previous book Community Character The purpose of the earlier book is to give citizens and planners a systematic way of thinking about the attributes of their communities and a common language to use for planning and zoning in a consistent and reliable way This follow up volume addresses actual design in the three general classes of communities in Kendig's framework urban suburban and rural The

author's practical approaches enable designers to create communities with the character that citizens actually want. Kendig also provides a guide for incorporating community character into a comprehensive plan. In addition, this book shows how to use community character in planning and zoning as a way of making communities more sustainable. All examples in the volume are designed to meet real world challenges. They show how to design a community so that the desired character is actually achieved in the built result. The book also provides useful tools for analyzing or measuring relevant design features. Together, the books provide a comprehensive treatment of community character, offering both a tested theory of planning based on visual and physical character and practical ways to plan and measure communities. The strength of this comprehensive approach is that it is ultimately less rigid and more adaptable than many recent flexible zoning codes.

Handbook for Educating Students with Disabilities Jeffrey P. Bakken, 2025-09-16 This Handbook focuses on the implications and strategies for educating students with disabilities. Covering diverse populations from an academic, behavioral, and international standpoint, it is a comprehensive resource spanning elementary to high school. In the first section, the Handbook delves into students with learning disabilities, autism, and emotional behavioral disorders. The second section deals with students that have intellectual disabilities or extensive support needs. The third section concentrates on students with sensory disabilities. The fourth section addresses disabled youth and ways of knowing how to inform strategies in special education. The fifth and final section explores how teachers, parents, and related personnel impact special education and services for these students. Extensive in its coverage of different disability areas, the content is both informative and innovative, offering invaluable insights. The Handbook draws from a mix of national and international perspectives, making it an indispensable guide for anyone engaged in the critical area of special education.

Community Organizing for Urban School Reform Dennis Shirley, 2010-01-01 Observers of all political persuasions agree that our urban schools are in a state of crisis. Yet most efforts at school reform treat schools as isolated institutions disconnected from the communities in which they are embedded and insulated from the political realities which surround them. Community Organizing for Urban School Reform tells the story of a radically different approach to educational change. Using a case study approach, Dennis Shirley describes how working class parents, public school teachers, clergy, social workers, business partners, and a host of other engaged citizens have worked to improve education in inner city schools. Their combined efforts are linked through the community organizations of the Industrial Areas Foundation, which have developed a network of over seventy Alliance Schools in poor and working class neighborhoods throughout Texas. This deeply democratic struggle for school reform contains important lessons for all of the nation's urban areas. It provides a striking point of contrast to orthodox models of change and places the political empowerment of low income parents at the heart of genuine school improvement and civic renewal.

Culturally Affirming Literacy Practices for Urban Elementary Students Lakia M. Scott, Barbara Purdum-Cassidy, 2016-08-17 The nation's demographic of public schools are more ethnically, racially, and linguistically diverse.

than ever before Strauss 2014 However there are still educational policies and practices that call to question whether traditionally marginalized students receive an equitable education This is demonstrated in national achievement trends which highlight disproportionality ratings among minoritized student groups Also when examining school discipline policies expulsion ratings special education services and school choice movements all seem to handicap educational opportunity for low income Black and Brown students As American schools become more and more diverse it is imperative that the literacy practices used to teach young students of color reflect the nation s changing demographic This book provides practical insights guided by conceptual and contextual knowledge in understanding how to teach urban African American and Hispanic Latino a students by discussing issues associated with critical pedagogies literacy and culturally appropriate instructional strategies that have demonstrated success for traditionally marginalized student populations This book examines culturally affirming literacy practices from three main components 1 scholarship 2 the field of practice and 3 teacher education models Each of these three are significant in understanding how to teach minoritized populations As such chapters have been organized into three main sections that address scholarship and research trends in the field and implications for teacher education models all in order to advance the literacy achievement of African American and Hispanic Latino a students

Peace Education in a Postmodern World Ian M. Harris, 2013-12-16 This special issue of the Peabody Journal of Education provides a comprehensive overview of the latest developments in peace education reform School reforms based upon principles of peace education have in common a belief in the power of peace to create a positive learning climate in schools and to address the problems of violence in the broader culture A peace education strategy for improving school productivity rests upon three main assumptions 1 Violence contributes to the poor performance of many students 2 Adults in school settings need to address problems created by violence in order for schools to improve 3 Anxieties that make it hard for students to master traditional subject matter can best be addressed by a comprehensive peace education strategy that makes school a safe place to learn and provides students with knowledge about alternative nonviolent ways to resolve conflicts Peace building reforms go beyond responding to immediate forms of violence that may be overwhelming students and teachers to promoting positive images of peace through the study of nonviolence Written by established experts in the field of peace education from six different countries this collection of articles not only represents a wide variety of peace education practices from different corners of the globe but it also represents varying academic perspectives Educators can play a key role in helping human societies progress toward more sustainable ways of living by implementing peacemaking peacekeeping and peace building strategies in school programs Peace education reforms point to a new way of thinking about schools as vehicles for promoting a peace culture through insights offered by nonviolent theory
