

Report & Survey Methodology

The CyberSource Airline Online Fraud Report, developed in association with Airline Information, is based on a survey of airlines from across the globe, representing an estimated 80% of total worldwide airline sales. Decision makers who participated in this survey were either ultimately responsible for, or had significant influence on, fraud management policies and decisions for their carrier.

Airline sales experience grows larger from airlines with less than three years to over ten years experience selling via the web (see Chart #3). The airlines participating in the survey ranged in size from less than \$500 million in total annual sales to over \$10 billion. Online sales from airlines participating in the survey totaled \$62 billion in 2010.

The survey was conducted via online questionnaire by Handel Research and completed by 142 participants between November 17, 2010 and January 31, 2011.
