The Report: Egypt 2007 , US Democracy Promotion in the Middle East Dionysis Markakis, 2015-08-27 US Democracy Promotion in the Middle East seeks to explore the changes in US strategy towards democracy promotion in the Middle East during the Clinton and Bush administrations with a particular focus on Egypt Iraq and Kuwait At a time of regional turmoil and political reform the topic of democracy promotion has never been more pertinent We are witnessing the emergence of popular movements that are challenging authoritarian governments long supported by the US Tracing the contours of the ongoing transition in US policy in the Middle East this book critically deconstructs the strategy of democracy promotion on both a theoretical and empirical level By formulating and applying an analytical framework derived from a Gramscian approach Markakis seeks to propose a re evaluation of what US foreign policy in the Middle East truly constitutes critiquing both the ideological foundations of the strategy as well as the implementation This book will provide a solid foundation for the analysis of US policy and in particular the strategy of democracy promotion at this time of momentous transition across the region

Egypt Rabab El Mahdi, Professor Philip Marfleet, 2013-04-04 Egypt is at the axis of the Arab world With the largest population the largest industrial economy and the longest tradition of modern political activity it has profound influence across the region But there have been few attempts to understand contemporary Egyptian society in particular growing internal pressures for change and their implications for the Middle East and the wider world This book is the first for over 20 years to offer an accessible examination of contemporary issues in Egypt It offers the reader analyses of its politics culture and society including contributions by several Egyptian academics and activists This unique new book addresses the turmoil created by imposition of neo liberal economic policies the increasingly fragile nature of an authoritarian regime the influence of movements for democratic opening and popular participation and the impacts of Islamism The authors argue that Egypt has entered a period of instability during which the low intensity democracy embraced by the Mubarak regime faces multiple challenges including demands for radical change This unique new book assesses the ability of the state to resist the new movements and the latter's capacity to fulfill their aims

Rutherford, 2008-11-24 Egypt's autocratic regime is being weakened by economic crises growing political opposition and the pressures of globalization Observers now wonder which way Egypt will go when the country's aging president Hosni Mubarak passes from the scene will it embrace Western style liberalism and democracy Or will it become an Islamic theocracy similar to Iran Egypt after Mubarak demonstrates that both secular and Islamist opponents of the regime are navigating a middle path that may result in a uniquely Islamic form of liberalism and perhaps democracy Bruce Rutherford examines the political and ideological battles that drive Egyptian politics and shape the prospects for democracy throughout the region He argues that secularists and Islamists are converging around a reform agenda that supports key elements of liberalism including constraints on state power the rule of law and protection of some civil and political rights But will this deepening liberalism lead to democracy And what can the United States do to see that it does In answering these questions Rutherford shows that Egypt's reformers are reluctant to expand the public's role in politics This suggests that while liberalism is likely to progress steadily in the future democracy's advance will be slow and uneven Essential reading on a subject of global importance Egypt after Mubarak draws upon in depth interviews with Egyptian judges lawyers Islamic activists politicians and businesspeople It also utilizes major court rulings political documents of the Muslim Brotherhood and the writings of Egypt's leading contemporary Islamic thinkers
