

“ESSAY ON CONTRIBUTION OF TECHNOLOGY IN EDUCATION”

The word technology has been derived from the Greek word “**technology**”. The “**tech**” stands for art, craft, and skill and “**logy**” stands for the subject of interest. The technology can be defined as a platform that can perform any task as per our needs. Addition of education with technology, it will become easy for students. In the digital Era in which we currently live, technology plays a vital role, with each passing day, new software of gadget is being introduced in the tech market that improves our lives in one way or another and makes it much more comfortable. The mode of education was never the same, and it has changed continuously; in the beginning, there were no books or notebooks, students used to learn whatever their teacher used to teach the class itself. After the invention of paper and pen, slowly the process moved and today we have technology in our new mode of learning. Technology introduced in the classroom help the students understand and learn what they are being taught.

Technology is considered as a new subject of education because it is equally important. It has become a fundamental part of education. Nowadays either you have to know your syllabus or want to learn about a topic, everything is possible and available online. You can reach these resources with the help of various technologies. But in today’s time when technology has become an integral part of education students quickly get multiple options to answer their question, there are multiple
