## **Used Adirondack Guide Boats:**

**Boats and Boating in the Adirondacks** Hallie E. Bond, 1998-08-01 Adirondack history is a tale written on the water. In the Adirondacks, people have traveled, conducted warfare, hunted and fished, gone to church, proposed marriage and driven logs in on from or by water. Without boats, small and large, Adirondack history, social, recreational, commercial and environmental, would be an affair entirely different from what we have come to know. In this lavishly illustrated account, Hallie E. Bond presents a history of these boats: canoes, sailboats, power launches, outboards, and the indigenous guideboat that figure prominently in the overall history of the Adirondacks. The pre-contact Indians paddled dugout and bark canoes in the seventeenth and eighteenth centuries; these craft were joined by skiffs and bateaux. Between 1820 and World War II, a distinctive tradition of boat building developed, culminating in the famous Adirondack guideboat. As the nineteenth century progressed, a variety of small, fresh water, muscle-powered boats was produced in the Adirondacks, an assemblage matched by only a few places in the country. There were the canoes and the men that made them famous: John Henry Rushton and Nessmuk, and the guideboats and their builders, H. Dwight Grant and Willard Hanmer. In the early twentieth century, the development of the internal combustion engine irrevocably changed not only boat use and design, but life and leisure in the Adirondacks. Bond skillfully captures the whole panorama of boats and boating in the Adirondacks, from early dugouts and bateaux to the high-powered inboards that won Gold Cup races on Lake George, and the Kevlar pack canoes of today. Drawing on her experience as an historian and Curator of Collections and Boats at the Adirondack Museum, Bond places events and trends of the region in the context of national and international history and describes the significant contribution of the Adirondacks in the early twentieth century development of recreation and travel in America. **Boats and Boating in the Adirondacks** also includes a descriptive catalog of boats from the museum's own collection, with nearly two hundred illustrations, in addition to those in the narrative, a list of boatbuilders active in the North Country before 1975, and a valuable glossary of terms.

**The Adirondacks** Gary Randorf, 2002-07-29 One hundred full-color photographs illustrate this history and current health of upstate New York's Adirondack Park, the first private-public partnership dedicated to the protection of a U.S. wilderness area. Here is the first lesson about the Adirondacks captured in Gary Randorf's magnificent photos. It is not only alpine granite; in fact, of the park's six million acres, only about eighty-five scattered on top of the tallest mountains are that gorgeous pseudo-Arctic. Aside from the touristed High Peaks, the Adirondacks comprise millions upon millions of acres of Low Peaks, of beaver draws and bearish woods, of hills and hills and hills, countless drainages and muddy ponds. The second point about the Adirondacks, a glory carefully revealed in the words and pictures of this book, is that it represents a second-chance wilderness and, as such, a hope that the damage caused by human beings is not irreversible. It is metaphor as much as place. From the foreword by Bill McKibben. In *The Adirondacks: Wild Island of Hope*, Gary A. Randorf offers 100 photographs to illustrate this unique, comprehensive history and natural history of the Adirondack Park, the first private-public partnership in

the United States dedicated to the protection of a wilderness area Situated in northeast New York this regional park of six million acres represents a unique blend of public wildlands intermixed with commercial forests farms mines private parks prisons scattered homes dozens of villages and a year round population of 130 000 The ongoing attempts over the last century to make the Adirondacks a park have made this region a striving ground for living with the land rather than outside or above it Much of the strife is over finding a right relationship to the land treating it not as a commodity to be exploited but as a community to which all living things belong and upon which all depend Today the Adirondacks regional park with its six million acres represents a second chance wilderness as Bill McKibben writes in his foreword to this book The concerns of this park are the same concerns that apply to all of America s parks recreational areas and wildernesses with the addition of how to maintain the fragile peace between human and natural communities How that second chance can be realized is the focus of Gary Randorf s text and stunning color photographs

Around Caroga Lake, Canada Lake, and Pine Lake Carol Parenzan Smalley,2011 The southern Adirondack Mountains community of Caroga Lake Canada Lake and Pine Lake is known for the power of its water and the perseverance of its people The quiet mountain lumbering community changed quickly in 1865 when two entrepreneurs purchased 20 000 acres of hemlock rich land and erected a tannery to cure leather for a shoe making business Additional lumbering opportunities followed and sawmills sprung up around many of the lakes Horse drawn carriage services and wood burning steamboats delivered summer residents and artists to rustic camps that dotted the lakes shorelines and tourists to grand hotels Today the ghostly remains of Sherman s Park on West Caroga Lake and Groshans Park at Pine Lake remind its residents and guests of the past that was and the future that might yet be
