American ideals of self reliance the good life and the self made man Teaching practices around these texts may also reinforce harmful practices and ways of thinking including those connected to notions of culture literary merit and methods of reading teaching and learning Teaching the Canon in 21st Century Classrooms offers innovative critical ways of reading thinking about and teaching canonical texts in 21st century classrooms Responding to the increasingly pluralized digitized global 21st century English classroom chapter authors make explicit the ideologies of a canonical text of focus while also elaborating a pedagogical approach that de centers the canon bridges past and present applies critical theory and celebrates the rich identities of 21st century readers In using this book teachers will be especially poised to take on the canon in their classroom and thus to open up their curricula to ideas values concerns and narratives beyond those embedded in the canonical texts

**Emotions of a Book** Guido Parisi,2016-11-29 The settings of the stories the facts described and the style of writing spring from the wealth of experience of a teacher and writer who has lived in many countries of the world The main purpose of Emotions of a Book is to analyse the relationship between the author depicted as an artist and a book presented as a living being gifted with its own personality This axiom can be extended to any other category of artist musician painter sculptor and so on in their interaction with their respective working tools or objects Guido asks if a book a musical instrument a paint brush has its own soul sensitivity the power to influence to shape another s will to make its own decisions Is it possible that these things these apparently inert objects can be supplied with an energy to give them their own life Indeed it is not only an artist who when face to face with his working tool engages in long dialogues with it as if it were a living thing This happens to anyone used to seeing or dealing with the same things every day a writing desk a hammer a spade or even a computer Is then the process of creativity conditioned by this interaction Each of us can give his own interpretation and answer Guido has tried to monitor step by step the inner drama of an author aware of his talent but incapable of expressing it for various reasons A few of these reasons are personal such as precarious health a lack of will and motivation and another is the fact that the invisible life blood of a blank book appears with an autonomous life It expresses its world and its long history with the same human feelings as any person but it also possesses a power which it uses to influence talented authors This book will appeal to those who enjoy reading about literature history and culture *Pass G. E. D.* McGraw-Hill/Glencoe,Scott,

commemoration and propaganda With wide ranging transhistorical coverage she argues that wartime Shakespeare is defined by its malleability and plural mis understandings which determine its power to shape the experience of war the political issues at stake during a period of crisis and the construction of narratives of conflict     The Pedagogy of Adaptation Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 From *All Quiet on the Western Front* and *Gone with the Wind* to *No Country for Old Men* and *Slumdog Millionaire* many of the most memorable films have been adapted from other sources And while courses on film studies are taught throughout the world *The Pedagogy of Adaptation* makes a strong case for treating adaptation studies as a separate discipline What makes this book unique is its claim that adaptation is above all a creative process and not simply a slavish imitation or reproduction of an original This collection of essays focuses on numerous contexts to emphasize why adaptations matter to students of literature It is the first such volume devoted exclusively to teaching adaptations from a practical teacher centered angle Many of the essays show how adaptation as a discipline can be used to prompt reflection on cultural historical and political differences Written by specialists in a variety of fields ranging from film radio theater and even language studies the book adopts a pluralistic view of adaptation showing how its processes vary across different contexts and in different disciplines Defining new horizons for the teaching of adaptation studies these essays draw on such disparate sources as *Frankenstein* *Moby Dick* and *South Park* This volume not only provides a resource book of lesson plans but offers valuable pointers as to why teaching literature and film can help develop students skills and improve their literacy     Dramatic Dance Darren Royston, 2014-04-24 Dance is part of the art of theatre a part which connects to movement to communication to improvisation and to performance It cannot exist on its own in the context of dramatic performance but works in conjunction with other elements to enable meanings to be created in performance *Dramatic Dance* sets a programme for actors to perform dance as part of the drama offering several approaches which can contribute to developing this understanding to training this skill and always ensuring that the whole active and thinking body and mind are fully engaged with the task of making dance an integral and vital part of theatre To study dance in this way allows students to develop further their understanding of logic and structure in a dramatic text Many books deal with one aspect of dance or another some on dance training some on dance history some on Rudolf Laban s ideas some as dance manuals and some as academic papers *Dramatic Dance* is the first book to act as a comprehensive guide for theatre practice bringing together these different complementary disciplines     **Foiled Again** J. S. Borthwick, 2007-02-06 After a series of apparent pranks that leave a faculty member badly injured and a student dead Bowmouth College English professor Sarah Deane uncovers a tangled web of academic politics extracurricular activities gone awry and murder
