Standard Time Tables and Output Guides Great Britain. Forestry Commission. Work Study Branch, 1978 The demand from private forestry for guidance on payment of workers has increased enormously over the past few years and the Forestry Commission has been meeting this demand by giving enquirers copies of its Standard Time Tables and Output Guides The indiscriminate issue of these tables is however likely to cause more problems than it solves particularly where the user has little experience of using such tables as a basis for incentive payment or what is worse he uses outdated tables To meet these needs it has been decided to publish current tables in the form of a Forestry Commission Booklet every few years This issue is dated 1978 users are strongly recommended in their own interests to replace it by the next edition as soon as it is available

competing standards This would he argues resolve the conflict between patents and standards and mitigate the patent hold up problem This is a must read book for scholars interested in technology patents innovation and competition law and policy as well as those individuals working in standard setting organisations It will also be of great interest to patent offices patent attorneys and competition lawyers
