charge We thus chase nature in the wrong form We feel guilt anxiety and mental stress from being coaxed into paying a hefty premium price for natural products that are neither safer nor more effective than conventional ones and forget to appreciate real nature in the process This book explores the history of chemical fears and the recent events that amplified it It describes how consumers teachers doctors lawmakers and journalists can help make better connections with the public by telling stories that are more engaging about chemistry and materials science Written in a sympathetic way this book explains both sides of the argument for anyone with an interest in science     Cracking the Digital Ceiling Carol Frieze, Jeria L.
