Teach for Understanding

Lesson Focus

In this lesson you will write numbers in three different forms and identify the value of each digit in a number.

Identify how math helps us serve others.

- Direct attention to Worktext page 1. Read the page aloud to introduce the flight theme and the biblical worldview truths that will be emphasized throughout the chapter.
- Read Galatians 6:10 aloud and explain that God's Word teaches people to serve others.

Whom does God want us to serve, or do good to? all men, and especially other Christians.

Point out that math helps us solve real-life problems so that we can help make people's lives better. Direct attention to the last paragraph on Worktext page 1. *How can pilots serve others? Pilots can help people make better use of their time by bringing them to their destinations in hours instead of days.*

Discuss more specific ways pilots serve people on a daily basis. You may discuss the following ideas.

- Pilots make it easier for people from different parts of the world to do business with one another.
- People are able to travel quickly and relatively inexpensively to visit family and friends thousands of miles away.

The Base-10 Place Value System

- uses 10 digits to construct numbers (0, 1, 2, 3, 4, 5, 6, 7, 8, 9)
- assigns value to each digit of a number depending on its place within the number
- uses a symbol to separate the periods.

Math 3

Lesson 1

- Missionaries can easily travel the world to share the gospel.

How can math help you serve others? possible answers: I can read a clock to calculate how much time I have to get ready so I will not make my family late to church. I can check the cost of an item before asking my parents to make a purchase. I can read the thermometer to see if it is a comfortable day for an outside activity I want to plan.

Identify the repetition of the Ones, Tens, and Hundreds places in each period; read numbers with 9 or fewer digits

- Write the number 765 above 657 for display.
In 765, what is the value of the 7? 7 hundreds; 7 is in the Hundreds place.
What is the value of the 7 in 657? 7 ones; 7 is in the Ones place.
Repeat the procedure for the 6 and the 5 in each number.
- Guide the students in adding 765 + 657, pointing out that you are renaming 10 ones as 1 ten and then 10 tens as 1 hundred. 1,422
Remind the students that our number system is a base-10 system; the value of each place is 10 times greater than the value of the place immediately to its right.
