Stock Market Magazine **Technical Analysis of Stock Trends, Tenth Edition** Robert D. Edwards, John Magee, W.H.C. Bassetti, 2012-11-28

Sixty three years Sixty three years and *Technical Analysis of Stock Trends* still towers over the discipline of technical analysis like a mighty redwood Originally published in 1948 and now in its Tenth Edition this book remains the original and most important work on this topic The book contains more than dry chart patterns it passes down accumulated experience and wisdom from Dow to Schabacker to Edwards and to Magee and has been modernized by W H C Bassetti Bassetti a client friend and student of John Magee one of the original authors has converted the material on the craft of manual charting with TEKNIPLAT chart paper to modern computer software methods In actuality none of Magee s concepts have proven invalid and some of his work predated modern concepts such as beta and volatility In addition Magee described a trend following procedure that is so simple and so elegant that Bassetti has adapted it to enable the general investor to use it to replace the cranky Dow Theory This procedure called the Basing Points procedure is extensively described in the new Tenth Edition along with new material on powerful moving average systems and Leverage Space Portfolio Model generously contributed by the formidable analyst Ralph Vince author of *Handbook of Portfolio Mathematics* See what s new in the Tenth Edition Chapters on replacing Dow Theory Update of Dow Theory Record Deletion of extraneous material on manual charting New chapters on Stops and Basing Points New material on moving average systems New material on Ralph Vince s Leverage Space Portfolio Model So much has changed since the first edition

yet so much has remained the same Everyone wants to know how to play the game The foundational work of the discipline of technical analysis this book gives you more than a technical formula for trading and investing it gives you the knowledge and wisdom to craft long term success *Charting and Technical Analysis* Fred McAllen,2012-04-06 To invest successfully or trade in Stocks Options Forex or even Mutual Funds it is imperative to know AND understand price and market movements that can only be learned from Technical Analysis You should NEVER attempt Trading or Investing without it My 25 years experience has taught me that every book on the market regarding Charting and Technical Analysis is seemingly worthless All seem to find yet another creative way to tell you to Buy Low and Sell High And they offer NO in depth understanding or analysis about WHO is buying and WHO is selling and when Point is anyone experienced or not can show you a picture of a Chart and tell you to buy at the bottom and sell at the top That is simple hindsight and is always 20 20 This book is different It is IN DEPTH EXPLAINED and you WILL learn price movements and technical analysis from this information You will understand and recognize tops and bottoms in the market and in particular stocks AS they are forming This is highly valuable information and you should NEVER attempt to trade or invest without this knowledge Mutual Funds Most people think they do not need this information because they have a Mutual Fund That could not be farther from the truth Investing your hard earned money should be done with your own knowledge of market direction when to buy and when to move your money to safety Without this knowledge you are at the mercy of a salesperson hungry to earn a commission Thus invariably entering the market at the wrong time and in the wrong investment No one else has your best interest in mind So learn to protect your money or keep it in the bank It s that simple The next move is yours **A Random Walk Down Wall Street** Burton G.
