According to Osuolale (2014), a lot of factors contribute to the poor achievement of students in Physics such as availability of teaching aids, teaching-learning strategies, learning environment etc. While other factors cannot be ignored, studies have shown that if teaching-learning strategies are improved, achievement can be enhanced (Elvis, 2014; Oluwasegun, 2019; Raimond, 2012). Physics curriculum at the secondary school level is broken down into mechanics, heat, waves, motion, light, electricity

and atomic Physics. Report from WAEC external examiner (2016 and 2017) noted a general weakness in the ability of students to answer questions in waves. Obafemi and Onwioduokit (2013) found out that waves rank highest in level of difficulty by both teachers and students. The findings of this study also agree with Fisher (2009) who found that the concepts of projectile motion, simple harmonic motion and diffraction of light waves were difficult for the students. Waves is a major branch of secondary school physics in Nigeria.
