A Thinker and Seeker Robert A. Floyd, 2021 This book is about the author's my life including my ancestors who came into Colonial America from Northern Ireland in 1746. This book is also about me growing up on the farm. There are episodes given such as the time when I was about 10 years old and had the chore of taking two gallons of skim milk to feed about eight 200 pounds pigs their desert so to speak. On at least one occasion the pigs surrounded me and ran into the pail of skim milk resulting in me getting a skim milk bath. My educational journey started in a two room country school where the eighth grade included four girls and me. My educational journey continued through high school University undergraduate and graduate school where the high light of my learning was the spookiness of quantum physics. My goal began to be realized when I started doing and leading biomedical research activity in 1974 and then after 30 plus years of research and over 200 peer reviewed research papers I was awarded the Discovery Research Metal from the research society I helped found several years earlier. It is important to note that my relative that came from Northern Ireland was a Loyalist Colonel in command of a militia in the Revolutionary War. Several of my close relatives were in the Civil War on the Union side. Many of their graves are within one half mile of the farm where I grew up. At least two of my close relatives died in a Confederate prison in Virginia. President Abe Lincoln's birthplace was about sixty five miles away from the home farm.
