Congress. House. Committee on the Judiciary. Subcommittee on the Constitution, Civil Rights, and Civil Liberties, 2009 **Monitoring American Federalism** Christian G. Fritz, 2023-01-26 Monitoring American Federalism examines some of the nation's most significant controversies in which state legislatures have attempted to be active partners in the process of constitutional decision making Christian G Fritz looks at interposition which is the practice of states opposing federal government decisions that were deemed unconstitutional Interposition became a much used constitutional tool to monitor the federal government and organize resistance beginning with the Constitution's ratification and continuing through the present affecting issues including gun control immigration and health care Though the use of interposition was largely abandoned because of its association with nullification and the Civil War recent interest reminds us that the federal government cannot run roughshod over states and that states lack any legitimate power to nullify federal laws Insightful and comprehensive this appraisal of interposition breaks new ground in American political and constitutional history and can help us preserve our constitutional system and democracy Uncommon Sense David Givot, 2025-07-07 In a time of unprecedented division Uncommon Sense For Voters Who Can Save America from Itself cuts through the chaos with clarity courage and constitutional insight In this irreverent and entertaining book David Givot challenges the angry echo chambers on both sides urging readers to think rationally and logically and to revisit the founding principles that made this nation strong Uncommon Sense questions how far we've drifted so we can get back on track The immeasurable abundance of misinformation and outright lies combined with the unfettered vitriol cloaked in the anonymity of the internet are feeding the beast of hate faster than anything ever has in our history If the misinformation and hatred don't end America will Drawing from American history the Constitution and the voices of past leaders Uncommon Sense makes the case that it's not politicians who will save America but informed engaged and principled voters who dare to think critically ask questions and speak civilly This is not a book for the far left or the far right the extremes on both sides may hate

its message Uncommon Sense is for every American who is tired of the shouting and the noise and the hate for every American who is willing to have a real conversation Getting there is going to require that we put away our biases and party allegiances that we take a deep breath and open our minds that we flush away everything we have been told about governing and politics by network media corporations social media content creators and clickbait talking point headlines We must adopt a position of simple pragmatism and logic we must all think it through to find the simplest solutions for voters and politicians alike to pursue and tap into the true greatness America has to offer in the twenty first century and beyond Getting there is going to require that we ask more questions and listen to more answers and that we normalize talking about it civically

Disqualifying the High Court Louis J. Virelli III, 2016-06-03 Since at least the time of Justinian under statutes codes of judicial ethics and the common law judges have been expected to recuse themselves from cases in which they might have a stake The same holds true for the justices of the US Supreme Court For instance there were calls for Ruth Bader Ginsburg and Elena Kagan both of whom had officiated at gay weddings to recuse themselves from the recent marriage equity case Obergefell v Hodges Even a case like this where no justice bowed out reveals what a tricky ethical issue recusal can be but as Louis J Virelli demonstrates in this provocative work recusal at the Supreme Court also presents questions of constitutional power Disqualifying the High Court shows that our current understanding of how and when justices should recuse themselves is at odds with our constitutional design Viewing recusal through a constitutional lens Virelli reveals new and compelling information about how justices should decide recusal questions and in turn how our government should function more broadly Along the way he traces the roots and development of federal recusal law in America from as early as the Roman Empire up to the present day The Supreme Court's unique place at the top of the judicial branch protests the justices from some forms of congressional interference Virelli argues that constitutional law in particular the separation of powers prohibits Congress from regulating the recusal practices of the Supreme Court Instead those decisions must be left to the justices themselves grounded in the principles of due process assuring parties fair treatment by the judicial system and balanced against the justices rights to free speech Along with the clarity it brings to this highly controversial issue Virelli's work also offers insight into constitutional problems presented by separation of powers It will inform our evolving understanding of theory and practice in the American judicial system
