Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust, Business Rights, and Competition, 2002 **Verizon Untethered** Ivan Seidenberg, 2018-05-01 The Verizon leadership team stands apart from most leadership teams today in their willingness repeatedly to put the enterprise before the individual At first blush this might look like a hopelessly old fashioned notion in the age of the selfie Yet

I would argue this is a trait that future leaders and boards of directors across industries would do well to understand and embrace Seidenberg not once but twice in the service of company shareholders and employees subordinated himself and put off taking sole leadership of the company to advance the enterprise's odds of success. And many others in this story exhibited the same trait to help build this industry leading enterprise. They understood that the risk of not acting and thereby destroying value during a period of accelerating technological change and industry consolidation—a situation faced by leadership teams around the world today—was much greater than the risk of stepping in as No. 2 or co-CEO. In my 50 years of experience, it is a rare leadership team that will subordinate itself for the benefit of the industry, customers, and the company. That principle—that the company comes first, the individual second—is what will define successful leadership teams of the future. Multiple leadership principles, some new, some timeless, emerge from this narrative and will be of great use to the next generation of leaders across industries and around the world. By taking a look at a company that successfully executed exponential transformation, we can take the strategies of Verizon leaders and apply them to our own experiences. Ram Charan

How Internet Protocol-enabled Services are Changing the Face of Communications United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Telecommunications and the Internet, 2005 **InfoWorld**, 2001-02-12 InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects. **In the Matter of Representative Charles B. Rangel** United States. Congress. House. Committee on Standards of Official Conduct, 2010 **PC Mag**, 2007-11-20 PCMag.com is a leading authority on technology, delivering Labs-based independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. Disconnected Debbie J. Goldman, 2024-08-20 Call center employees once blended skill and emotional intelligence to solve customer problems while the workplace itself encouraged camaraderie and job satisfaction. Ten years after telecom industry deregulation, management had isolated the largely female workforce in cubicles, imposed quotas to sell products, and installed surveillance systems that tracked every call and keystroke. Debbie J. Goldman explores how call center employees and their union fought for good, humane jobs in the face of degraded working conditions and lowered wages. As the workforce coalesced to resist the changes, it demanded the Communications Workers of America (CWA) fight for safe and secure, good-paying jobs. But trends in technology, capitalism, and corporate governance combined with the decline of unions narrowed the negotiating options for workers. Goldman describes how the actions of workers, management, and policymakers shaped the social impact of the new digital technologies and gave new form to the telecommunications industry in a time of momentous change. Perceptive and nuanced, *Disconnected* tells an overlooked story of service workers in a time of change. **PC Mag**, 2007-11-20 PCMag.com is a leading authority on technology, delivering Labs-based independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get

more from technology **Plunkett's Telecommunications Industry Almanac 2008: Telecommunications Industry Market Research, Statistics, Trends & Leading Companies** Jack W.
