

Note: All illustrations are for illustrative purposes only and may not accurately depict the actual device. The items supplied with your phone may vary depending on the software and accessories available in your region or offered by your service provider. You can obtain additional accessories from your local Doro dealer. The supplied accessories provide the best performance with your phone.

2. GET STARTED

Before you first get your phone, there is a few advice that you need to read before starting to use it.

2.1. Read the product safety guidelines

2.1.1. Unlock your new phone

There is a lock on the phone and when the phone and equipment included in the delivery. Make sure to read through the manual so you can familiarize yourself with the device and the basic functions.

- The items supplied with the device and any available accessories may vary depending on the region or service provider.
- The supplied items are designed only for this device and may not be compatible with other devices.
- Accessories and specifications are subject to change without prior notice.
- You can purchase additional accessories from your local Doro dealer.
- Make sure they are compatible with the device before purchase.
- Only use batteries, chargers and accessories that have been approved for use with this particular model.
- Consulting official accessories may be dangerous and may void the phone's type approval and warranty.
- Availability of all accessories is subject to change depending on country and service providers. For more information about available accessories, refer to the Doro website.

Insert the memory card, SIM card and battery

Important!
Turn off the phone and disconnect the charger before removing the battery cover.

Remove the battery cover:

Important!
Be careful not to damage your fingernails when you remove the battery cover. Do not bend or twist the battery cover excessively as it may get damaged.

Use the SIM card:

The SIM card slot is located on the inside of the phone. Insert the card when changing them into the card holder.

Insert the memory card:

Insert the battery:

Insert the battery by sliding it into the battery compartment. Replace the battery cover.

2.2. Charge

Before it's possible that your phone will already come with enough charge to be powered on right off the box, we recommend to give it a full charge before first use.

Caution

Only use batteries, chargers and accessories that have been approved for use with this particular model. Consulting other accessories may be dangerous and may void the phone's type approval and warranty.

Before the battery is running low, the phone and a warning light is located in the battery compartment. The SIM card must now be unlocked with the PIN code (Personal Unblocking Key).

Alternatively connect the cable to the charging socket on the phone for a USB port on a computer.

2.2.1. Save energy

When the battery is fully charged, disconnect the charger from the device and make the charger back the wall socket.

To save power the screen goes off after a while. Press any button to wake the screen up. Battery display goes into a sleep mode. All call times and waiting times will mutually decrease with regular use. During extended operation, the device may heat warm. In most cases, this is normal. To avoid getting too warm, the device may switch off during charging.

2.2.2. Turn the phone on and off

- Press and hold **[Power]** to turn on and off.
- If the SIM card is valid but protected with a PIN code (Personal Identification Number), PIN appears. Enter the PIN code and press OK. Enter with **[Enter]**.

Note: If PIN and PUK code were not provided with your SIM card, please contact your service provider.

Warning: To reduce the number of PIN attempts left, when the device starts to show PIN blocked screen, the SIM card must now be unlocked with the PUK code (Personal Unblocking Key).

- Enter the PUK code and confirm with OK.
- Enter a new PIN code and confirm with OK.
- Re-enter the new PIN code and confirm with OK.

8. MESSAGES

8.1. Create a message

Create, edit and read messages. A text message will be converted to a picture message automatically when media files (images, video, etc.) are attached.

- Press **[F53]** → **Messages** → **New**.
- Enter the recipient's phone number in the **To** field. Or press **[F54]** to select a recipient from the contacts.
- Scroll through your contacts.
- On search a contact, press the button corresponding to the first letter of your contact's first or last name or the full name. Press **[F55]** to select a contact.

- Press **[F56]** to add more recipients.

- Select **Message** and enter your message.

- Press **[F57]** for further options.

- When done, press **[F58]**.

Note: If you choose to send to multiple contacts, you will be charged for each one.

Important

Some features may require data services and that can be costly. We recommend that you check your data service rates with your service provider.

9. WI-FI CONNECTION

You need an internet connection to use the internet and that is not always. To reduce data traffic costs, it is recommended to use the 3G/4G/LTE network when available, instead of using the more costly Mobile Data Connection. Contact your service provider for detailed subscription costs before connecting.

Use the already built Wi-Fi in your phone and it's often available at workplaces. Take advantage of free networks to surf the web, browse, email and internet. Connecting to the internet with Wi-Fi doesn't incur a data-in-use fee.

- Press **[F59]** → **Settings** → **Network & Connectivity** → **Wi-Fi**.

- Select **On** → **Internet**.

- Select **Available networks** and select the network you want to connect to.

- If the network is secured with a password, enter the password and select **Connect**.

[F60] is shown in the status bar when connected. You can easily turn on and off Wi-Fi from the **Quick settings**.

- Press the status screen, press **[F61]** to select **Wi-Fi**.

Note: Keep in mind that your phone's network is not always available. If the Wi-Fi is turned on, the phone automatically connects to the next best Wi-Fi network and without reach, some other networks might give you a log in to a webpage before gaining access to the network.
