**Breakdown:** Culture & Society (15%), Government (20%), Economics (13%), Geography (17%), History (37%)

- I. Culture and Society:** This section focuses on how humans behave and interact. In our class, we have studied how religion, social hierarchy, gender roles, and migration have shaped people's lives. For example, Hinduism and Islam influenced laws, traditions, and conflict. Social hierarchies like feudalism and the caste system controlled who held power and what types of opportunities people had. Major movements like colonization, industrialization, and nationalism changed social roles, shifted beliefs, spread ideas, and led to resistance. These patterns and behaviors help explain why societies develop the way they do.
