His Happy Restauration (etc.) Bulstrode Whitelocke,1682 **The English Reports** ,1903 *Family Law, Gender and the State* Alison Diduck,Felicity Kaganas,2012-02-07 The third edition of this work on family law comprising text cases and materials provides not only an explication of legal principle but also explores primarily from a feminist perspective some of the assumptions about and constructions of gender sexual orientation class and culture that underlie the law It examines the ideology of the family and in particular the role of the law in contributing to and reproducing that ideology Structured around the themes of equality welfare and family privacy the book aims to offer the benefits of a textbook while also giving students a wide ranging set of materials for classroom discussion As well as providing a firm grounding in family law the text sets the law in its social and historical context and encourages a critical approach by students to the subject It provides an ideal introduction to family law for undergraduates but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments Review of the second edition Diduck and Kaganas examine legal developments to shed light on society principally by investigating the ways in which family law constructs and regulates family life and responsibilities Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law T he book is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels whether looking for theoretical inspiration or drawing up a literature review

The range of diverse sources that Diduck and Kaganas draw on is impressive they seem to have included every bit of material that helps feminists make sense of family law There is a well pitched selection of further reading of such material at the end of each chapter What s more they undersell themselves by describing their book as Text Cases and Materials because they have woven by far the largest proportion of the cases and materials into the text Helen Reece Times Higher Education May 2007 Reviews of first edition A stimulating work which attempts to situate family law in its social historical and political context Its appeal should not be confined to family law students as its commitment to a critical and analytical approach offers insights and ideas with broader significance Mary Childs Child and Family Law Quarterly September 2002 The arguments are provocative the analysis is stimulating and the materials amassed strongly support the authors aim to question the axiomatic status of what is traditionally designated as the family Fiona E Raitt Infant and Child Development September 2002 It is not often that one can say of a textbook in Law that it makes interesting reading with quite the enthusiasm that can be expressed for this text This new publication offers something that few textbooks seem to offer a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum Penny Booth The Law Teacher September 2002 All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references As a teaching manual it is excellent a coherent feminist perspective across the entire range of family law Marty Slaughter Feminist Legal Studies July 2003 The American and English Annotated Cases ,1910
