Textual Evidence Quiz:

From Me to We Jason Griffith, 2016-08-19 With this practical book you will learn effective ways to engage students in reading and writing by teaching them narrative nonfiction. By engaging adolescents in narrative literary or creative nonfiction, they can cultivate a greater understanding of themselves, the world around them, and what it means to feel empathy for others. This book will guide you to first structure a reading unit around a narrative nonfiction text and then develop lessons and activities for students to craft their own personal essays. Topics include: Engaging your students in the reading of a nonfiction narrative with collaborative chapter notes, empathy check-ins, and a mini research paper to deepen students' understanding. Helping your students identify meaningful life events, recount their experiences creatively, and construct effective opening and closing lines for their personal essays. Encouraging your students to use dialogue outside research and a clear plot structure to make their narrative nonfiction more compelling and polished. The strategies in this book are supplemented by examples of student work and snapshots from the author's own classroom. The book also includes interviews with narrative nonfiction writers MK Asante and Johanna Bear. The appendices offer additional tips for using narrative nonfiction in English class, text and online resources for teaching narrative nonfiction, and a correlation chart between the activities in this book and the Common Core Standards.
