Vernacular Architecture 3 1972:

British and Irish Archaeology, 1994 The Invention of Comfort John E. Crowley, 2003-05-01 A history and analysis of the development of domestic design in early modern Britain and America How did our modern ideas of physical well being originate As John Crowley demonstrates in *The Invention of Comfort* changes in sensible technology owed a great deal to fashion conscious elites discovering discomfort in surroundings they earlier had felt to be satisfactory Written in an engaging style that will appeal to historians and material culture specialists as well as to general readers this pathbreaking work brings together such disparate topics of analysis as climate fire food clothing the senses and anxiety especially about the night Riveting A solid contribution to the literature on the cultural impact of gentility refinement and the baubles of Britain in England and its colonial possessions *Journal of American History* Crowley provides a masterly search and survey that no historian of material culture should miss and every curious reader should consider Eugen Weber Phi Beta Kappa Key Reporter A comprehensive and tight study a valuable contribution to the field and one that is enjoyable to read Emma Hart *English Historical Review* The sheer range of evidence the interweaving of themes and the overall strength of the argument mean this is an ideal book for specialists and students alike Helen Clifford *Journal of Design History* *The Invention of Comfort* is an important and thought provoking book that challenges our understanding of why people live that way they do Marie Morgan *New England Quarterly* **Publications of the American Folklife Center**, 1977 **The Agrarian History of England and Wales: Volume 3, 1348-1500** Edward Miller, Joan Thirsk, 1991-07-18 The third volume of *The Agrarian History of England and Wales* which was first published in 1991 deals with the last century and a half of the Middle Ages It concerns itself with the new demographic and economic circumstances created in large measure by endemic plague

Traditional Buildings in the Oxford Region John Steane, James Ayres, 2013-11-29 The pivotal position of the Oxford region in the geological and therefore building history of England is of fundamental importance to the study of traditional construction Oxford occupies a central position on the ancient route between Northampton and Southampton and on the east west road between London The West Country Wales and Ireland For this reason unusually for vernacular architecture the buildings of the region were subject to a wide range of influences This book the fruit of twenty years research provides an account of vernacular architecture in the Oxford region from Anglo Saxon times to the 19th century It begins with a discussion of methods and procedures followed by a description of building materials stone brick slate and thatch This serves as an introduction to the heart of the book eleven chapters dealing with surveys of cruck buildings manorial and moated sites town houses with particular emphasis on Abingdon and houses in the countryside from farmhouses to cottages There are then chapters on fire hazards public houses and public buildings Several appendices are devoted to wall paintings ferramenta apotropaic marks carpentry details secrets under the floorboards fireplaces staircases and windows The book is richly and profusely illustrated with over 500 illustrations photographs maps and a particular strength a large number of

drawings of architectural details and sketch perspectives

Technology and Resource Use in Medieval Europe Michael Wolfe, Elizabeth Smith, 2021-12-16 The 10 essays here are the result of a conference devoted to the study of medieval technology in April 1995 Taken together they aim to help dispel the common misconception that medieval people somehow had to toil in a world bereft of technical innovation and ingenuity The authors of the papers all experts in their fields show the Middle Ages not only to be a time of considerable technological development but also the ways in which the technologies of building construction manufacture and metallurgy were shaped by broader forces of culture social identity political ambition and the local environment

Suharto's Cold War Mattias Fibiger, 2023 This book examines President Suharto's effort to purge Indonesia of communism ensure the Left could never again pose a threat to the regnant order in Indonesia and promote anticommunist stability across the wider Southeast Asian region It emphasizes the role of international capital flows in the unfolding of the global Cold War showing how Suharto mobilized international aid and investment to construct his New Order dictatorship

Nineteenth-Century Cape Breton Stephen John Hornsby, 1992 Stephen Hornsby's historical geography of Cape Breton Island is a detailed examination of the patterns of economy settlement and society that emerged on the island during the nineteenth century These patterns Hornsby argues were strikingly similar to those created elsewhere in Canada

Houses and Cottages of Britain R. W. Brunskill, 2000-01-01 The sequel to *Traditional Buildings of Britain* traces the origins and development of traditional buildings by going inside the houses and revealing from their plans how they evolved from basic accommodation to homes giving comfort and privacy The book shows how local traditional materials earth timber stone brick were used in the construction of the buildings

Conversing by Signs Robert Blair St. George, 2000-11-09 The people of colonial New England lived in a densely metaphoric landscape a world where familiars invaded bodies without warning witches passed with ease through locked doors and houses blew down in gusts of angry providential wind Meaning Robert St George argues was layered often indirect and inextricably intertwined with memory apprehension and imagination By exploring the linkages between such cultural expressions as seventeenth century farmsteads witchcraft narratives eighteenth century crowd violence and popular portraits of New England Federalists St George demonstrates that in early New England things mattered as much as words in the shaping of metaphor These forms of cultural representation architecture and gravestones metaphysical poetry and sermons popular religion and labor politics are connected through what St George calls a poetics of implication Words objects and actions referentially interdependent demonstrate the continued resilience and power of seventeenth century popular culture throughout the eighteenth century Illuminating their interconnectedness St George calls into question the actual impact of the so called Enlightenment suggesting just how long a shadow the colonial climate of fear and inner instability cast over the warm glow of the early national period

Cruck Construction Nathaniel Warren Alcock, 1981

Twentieth-Century Building Materials Thomas C. Jester, 2014-08-01 Over the concluding decades of the twentieth century the historic preservation community

increasingly turned its attention to modern buildings including bungalows from the 1930s gas stations and diners from the 1940s and office buildings and architectural homes from the 1950s Conservation efforts however were often hampered by a lack of technical information about the products used in these structures and to fill this gap Twentieth Century Building Materials was developed by the U S Department of the Interior s National Park Service and first published in 1995 Now this invaluable guide is being reissued with a new preface by the book s original editor With more than 250 illustrations including a full color photographic essay the volume remains an indispensable reference on the history and conservation of modern building materials Thirty seven essays written by leading experts offer insights into the history manufacturing processes and uses of a wide range of materials including glass block aluminum plywood linoleum and gypsum board Readers will also learn about how these materials perform over time and discover valuable conservation and repair techniques Bibliographies and sources for further research complete the volume The book is intended for a wide range of conservation professionals including architects engineers conservators and material scientists engaged in the conservation of modern buildings as well as scholars in related disciplines
