Bodies of Evidence Amanda C. Seaman, 2004-02-28 The publication in 1992 of Miyabe Miyuke's highly anticipated *Kasha* translated into English as *All She Was Worth* represents a watershed in the history of Japanese women's detective fiction. Inspired by Miyabe's success and the increasing number of Western mysteries in translation, women began writing mysteries of all types employing the narrative and conceptual resources of the detective genre to depict and critique contemporary Japanese society and the situation of women in it. *Bodies of Evidence* examines this recent boom and the ways in which five contemporary authors Miyabe Nonami, Asa Shibata, Yoshiki Kirino, Natsuo and Matsuo Yumi critically engage with a variety of social issues and concerns: consumerism and the crisis of identity, discrimination and harassment in the workplace, sexual harassment and sexual violence, and motherhood. *Bodies of Evidence* moves beyond the borders of detective fiction scholarship by exploring the worlds constructed by these authors in their novels and showing how they intersect with other political, cultural, and economic discourses and with the lived experiences of contemporary Japanese women.

[The Gay Detective Novel](#) Judith A. Markowitz, 2015-02-16 Gertrude Stein called it the only really modern novel form that has come into existence yet the mystery genre was a century old before it featured its first gay main character in a novel. Since then, gay and lesbian detective fiction has been one of the fastest growing segments of the genre. It incorporates gay and lesbian cultural elements and offers crossover appeal. Its authors call upon a century of development in the mystery genre while providing new, more accurate images of lesbians and gay men than generally found in mainstream literature and popular media. This groundbreaking study of gay and lesbian detective fiction examines mystery series and historically significant stand-alone novels published since the early 1960s. Part I is an overview that describes how these novels make gay and lesbian life visible and forge new, powerful images. It also examines how they fit into the larger history of mystery fiction. The series analyses in Part II are grouped according to the type of main character: police officer, private investigator, amateur sleuth, etc. Each section discusses main and secondary characters of that type, characteristic themes for the group, and more. The analyses of individual series cover main characters, themes, plot points, and other elements. Comments from authors interviewed for this book play a central role in those analyses. Part III lists series spanning themes, e.g., homophobia, the closet, gay marriage, and the novels and series that address each of those themes.
