

Sophie never stopped talking. She even sleep-talked. It was as if someone had turned her onto talk mode, and broken the switch. Actually, there was no switch. No "Off" at all.

Lewis liked to listen. He had turned ten a month ago and his parents still wondered when he would start talking. He sat behind Sophie in class and listened to her. He never got annoyed, he thought she was funny. Every now and then he would say something to her like "Uh-huh" or "Wow" and when he felt like making a big effort he might even say, "What happened next?" or "Did you really?"

They were both pretty clever kids in their own ways. Fortunately for Lewis he showed how clever he was in his schoolwork. Unfortunately for Sophie, she was too busy talking, (and being sent to the corner, to the office, and to the principal) to get much work done.

One Monday afternoon, when it was Lewis' turn on message delivery duty, and Sophie had spent twenty minutes writing, "I will be quiet in class" over and over on the whiteboard, their teacher sent them both out together to run a couple of errands.

Text Structures From Picture Books [Grades 2-8] Stephen Briseño, Kayla Briseño, Gretchen Bernabei, 2023-09-18. Teach students the architecture beneath a successful story and boost their reading comprehension and writing skills for a lifetime. Writing instruction can sometimes seem scattershot as teachers try to cover a galaxy of craft techniques, ideas, intentions, and genres. The possibilities are endless, and that's the problem. In *Text Structures from Picture Books*, elementary and middle grade teachers tap into a well-ordered universe of inspiring and illustrative stories to help students frame their thinking and focus choices. Using the bite-size format of picture books as a starting point, the authors share 50 low-prep, quick-access lessons to help you teach students seven concrete ways to respond to text in any genre. Through these lessons, students will be able to:

- Generate their own writing using a text structure harvested from the work of professional authors.
- Retell a story using the text structure from the story.
- Generate reading responses using structures that support clarity.
- Analyze a story to construct thematic statements capturing the author's message and bigger themes.
- Write about a theme or big idea demonstrating empathic and evidence-based interpretation.
- Answer open-ended questions by selecting a technique that reflects the text and their engagement.
- Experiment with author's craft in their own writing.

Based on master writing teacher Gretchen Bernabei's instructional model, the lessons offer a lively, high-impact mix of reading aloud, discussion, modeling student writing, and peer share. Plus, readers have access to a complete companion website full of text structure reproducibles, reading response prompts, additional lessons, and extensions, students' samples, and links to demo videos. State tests are now assessing reading and writing together. And that's a good thing, but we've got some catching up to do. Written for students beginning in second grade, *Text Structures from Picture Books* will help your students swiftly and surely become text-savvy readers and writers.

Rethinking Small-Group Instruction in the Intermediate Grades Nancy N. Boyles, 2011. Small group instruction becomes a strategic, differentiated tool for Response to Intervention. In Dr. Nancy N. Boyle's new resource *Rethinking Small group Instruction in the Intermediate Grades*, in this complete and ready-to-go resource, Dr. Boyles answers key questions about transforming small group instruction to meet RTI objectives: How can I teach comprehension strategies during small group instruction? How do I align high-stakes standards with comprehension objectives? Where do fluency, vocabulary, and author's craft fit in small group discussion? How can I explicitly teach skills and promote meaningful discussions? and How do I effectively include intermediate grade students who function at a primary level? *Rethinking Small group Instruction in the Intermediate Grades* provides sixteen options to differentiate small group

instruction Teachers focus on reinforcing comprehension skills and strategies while explicitly teaching students how to construct basic meaning about both literary and informational texts and master the art of discourse which leads to higher level critical and creative thinking Boyles shows intermediate teachers how to embed the Common Core State Standards into small group instruction and provides all of the rubrics checklists planning templates and prompts necessary to implement these instructional formats in both the book and the included CD The useful CD also contains target sheets matched to each objective that explain how to find the best evidence to meet the objective Let Rethinking Small group Instruction maximize the power of your small group instruction to differentiate your teaching and efficiently meet RTI goals and national standards at the same time

Narrative as Writing and Literacy Pedagogy for Preservice Elementary Teachers Nancy A. Wasser,2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices
