Inclusive and Exclusive Education in India KHRITISH SWARGIARY,2025-06-01 The journey of crafting this book Navigating the Spectrum My Vision for Inclusive and Exclusive Education in India has been a profoundly reflective and insightful endeavor for me As an observer an analyst and a deeply concerned individual I have long grappled with the dual realities that define our nation s educational landscape the immense aspirations for universal access to quality education juxtaposed with the persistent often invisible barriers that exclude countless children from realizing their full potential My motivation for writing this book stems from a firm conviction that education is the bedrock of a progressive society and a truly inclusive educational system is not merely an ideal but an urgent necessity for India s equitable development In these pages I invite you to join me in a critical examination of how inclusive and exclusive practices manifest within the Indian educational context I have meticulously researched and analyzed the historical trajectory the policy frameworks that have been painstakingly developed and the formidable challenges that continue to impede the realization of true inclusion It has been my constant endeavor to root this analysis in verified facts and academic rigor ensuring that my perspectives are informed by a strong foundation of evidence I have also striven to present these complex issues with clarity and depth aiming to provide a comprehensive resource for policymakers educators researchers parents and anyone invested in the future of Indian education This book is more than an academic exercise it is my earnest attempt to contribute to the ongoing dialogue to challenge existing paradigms and to propose actionable pathways towards a more just equitable and ultimately more compassionate educational system for every child in our diverse nation My hope is that by dissecting the intricacies of this subject we can collectively move closer to a reality where every classroom in India truly embraces and celebrates the unique potential of every learner Khritish Swargiary 2025 *Smart Cities and Digital Transformation* Miltiadis D.
