Army-Navy-Air Force Register and Defense Times ,1904 Beyond Labor's Veil Robert E. Weir, 2010-11-01 The Noble and Holy Order of the Knights of Labor was founded in 1869 as a secret fraternal order committed to the goal of uniting American labor At its height in 1886 the Knights claimed the allegiance of perhaps a million workers Despite a host of local studies by the new labor historians of the 1970s and 1980s there has been no general study of the Knights since Norman Ware s 1929 book and no one has ever attempted a comprehensive study of the culture of the organization In *Beyond Labor s Veil* Robert E Weir presents a fascinating cultural portrait of the Knights across regions covering the years 1869 to 1893 From the start the Knights of Labor was an unusual organization equal parts fraternal order and labor union It was the only nineteenth century labor organization to organize African Americans women and unskilled workers on an equal basis with white craftsmen Weir goes beyond the rhetoric of public pronouncements and union politics to consider the real influence of the Knights in communities and homes as well as in the workplace Weir explores the many cultural expressions of the Knights ritual religion poetry music literature material objects graphics and leisure Although the Knights barely survived into the twentieth century Weir concludes that the creative cultural expressions of the Knights enabled it to do as well as it did in the face of powerful oppositional forces What emerges in *Beyond Labor s Veil* is a rich detailed description of the Knights as its members adapted to the confusion and contradiction of America s Gilded Age **AB Bookman's Weekly** ,1991

Academy, with which are Incorporated Literature and the English Review ,1884 *Catalogue of Books in English, French and German* Public Library of Cincinnati and Hamilton County, 1876 *The Academy* ,1907 Stressing the Modern Anne Vickery, 2007 *Stressing the Modern Cultural Politics in Australian Women s Poetry* is the first major study of

women's poetic careers in early twentieth century Australia. This was a particularly prolific period for women poets as a rapidly changing social climate generated new, often still ambivalent, identities around gender, race, class, and nation. Negotiating the modern landscape and the modern psyche through the complex effects of Federation, the suffrage movement, World War I, increasing industrialisation and urbanisation, and advances in technology necessitated innovations in poetic form and a rethinking of authorship. This exciting study examines the increasing visibility and popularity of women as poets, their shaping of literary tastes through editing and criticism, their cross-influence and friendships, and the resulting backlash within Australian literary circles. Furthermore, it traces how these writers mediated their experiences of travel, expatriation, and transnationalism against the desire to produce a literature of difference that is poetry that was regionally or culturally distinct. Using extensive archival material, *Stressing the Modern* offers a new understanding of the emergence of literary modernism in Australia. It demonstrates the significance of poetry as both a popular and a radical site for articulating modern lives and their concerns.
